1000m Single-mode dual-core fiber

Overview

This 2-core fiber optic drop cable with G657A1 single-mode fiber is engineered for FTTH (Fiber to the Home) applications, providing reliable connectivity between service provider networks and end-user premises. Let's break down these terms in simple, clear language with practical examples. 2-core o In optical modules, "core" refers to. Low-smoke halogen-free flame-retardant polyethylene sheath or flame-retardant PVC sheath, environmentally friendly. Can be matched with a variety of field connectors and can be field terminated. We supply GYXTW fiber optic cable from 2 fiber cores to 24 fiber cores. applications where multiple bends are present. These light weight units and have excellent crush and impact resistance. Outdoor/Aerial Durability: Built with 1 core G657A1 fiber and 3 steel strands for enhanced tensile strength, ideal for aerial installations and harsh outdoor environments. 3mm diameter sheath, this 1000-meter cable supports SC, FC, and LC connectors, providing robust.
