150 meters of single-mode fiber

Overview

Product Description This 150 meter (~492 feet) fiber optic cable is terminated with LC (Lucent Connector) connectors on both ends. It is a singlemode fiber (9 micron core) designed to transmit data across long distances at high speeds. Simply plug the cables to single mode fiber port and several high speed fiber optic links between two distance locations can be generated by spending far. Our 150m LC-LC armored fiber cable is featuring a stable armor layer that protects against bends, crushes, and harsh environments, ensuring reliable performance in even the most challenging installations. The cord is duplex (two. Help others learn more about this product by uploading a video! Would you like to tell us about a lower price?
