1G of stock optical transmitters

Overview

BlueOptics Gigabit Ethernet SFPs provide a powerful and reliable solution for your network needs. With a variety of standards and transmission distances, they are the perfect choice for modern networks.

Key Takeaways

1G optical transmitters, commonly in SFP form, provide 1 Gigabit per second data transfer over fiber, supporting distances from hundreds of meters to tens of kilometers depending on type and fiber used.

Overview1

G optical transmitters, often packaged as SFP (Small Form-factor Pluggable) modules, are widely used in enterprise networks, data centers, and telecommunications. They convert electrical signals into optical signals for transmission over fiber and are compatible with a variety of network devices from vendors like Cisco, HP, and Juniper. Types and Specifications1000BASE-SX SFP: Multi-mode fiber (MMF), up to 550 meters, wavelength 850 nm, IEEE 802.

3z standard. 1000BASE-LX SFP: Single-mode fiber (SMF), up to 10 km, wavelength 1310 nm, IEEE 802. 3z.

1000BASE-LH SFP: SMF, up to 25 km, wavelength 1310 nm. 1000BASE-EX SFP: SMF, up to 40 km, wavelength 1310 nm or 1550 nm. High-performance modules: Some SFPs support 1.

25 Gbps speeds, distances up to 10–15 km on SMF, with duplex LC interfaces and link budgets up to 15 dB. Diagnostic features: Many modules include digital monitoring for transmitted/received power, bias current, supply voltage, and temperature.

Compatibility and Standards1

G SF

Ps adhere to the SFP Multi-Source Agreement (MSA) and standards like IEEE 802. 3z, ensuring interoperability across devices. They are designed for hot-plugging and often include LVTTL control signals and AC-coupled CML inputs for high-speed data.

Availability1

G optical transmitters are widely available from suppliers such as BlueOptics, Mouser Electronics, Solid Optics, and T1 Nexus, with options for both multi-mode and single-mode fibers, covering distances from 300 meters up to 80 km. Many vendors offer lifetime warranties and datasheets for technical reference.

Key Considerations

Fiber type: Choose MMF for short distances and SMF for long distances. Wavelength: Ensure compatibility with existing network infrastructure. Distance and link budget: Verify the module supports the required transmission distance.

Diagnostics: Modules with digital monitoring provide real-time operational data for network reliability. Vendor compatibility: Confirm the SFP is compatible with your network equipment to avoid interoperability issues. 1G optical transmitters remain a cost-effective and reliable solution for high-speed network connectivity, offering flexibility, energy efficiency, and broad compatibility across modern networking environments.

1G CWDM/DWDM SFP Transceiver Modules | Optical Transceivers

FS 1G CWDM/DWDM SFP hot-swappable optical transceiver operates at DWDM wavelengths from CH17-CH61 and supports high-capacity long-distance network transmission, suitable for Gigabit

1G SFP Transceivers

BlueOptics Gigabit Ethernet SFPs provide a powerful and reliable solution for your network needs. With a variety of standards and transmission distances, they are the perfect choice for modern networks.

50/25/10/1G Transceiver Modules | Optical Transceivers

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

FS provides 50/25/10/1G transceivers modules in SFP/SFP28/SFP56/QSFP28 form factor, supporting transmission distances from 30m to 160km over SMF/MMF

MTS-SFP-1G-LX/LC Hirschmann | Mouser India

MTS-SFP-1G-LX/LC Hirschmann Fibre Optic Transceivers 1Gbps,Single-mode,1310nm,LC,20Km,DDMI datasheet, inventory & pricing.

/ 1G Optical Transceivers

Cube Technology Trading''s 1G transceiver series offers a diverse portfolio to meet the needs of various network applications, including SONET/SDH, xWDM, Ethernet, Metro Networks, Wireless Networks,

1G Copper SFP with SyncE and PTP_Copper SFP_Optical

The transceivers are RoHS compliant and the transmission distance at 1Gbps is up to 100m. Precision Time Protocol (PTP) Time Stamping is a future-Proof technology in Telecom, Professional

Flexoptix T.C12.02.A | 1G 1000BASE-T Programmable

Description FLEXOPTIX 1G SFP Transceiver Module not only delivers high-performance data transmission over a distance of up to 100m, but it also offers

1G SFP Optical Transceivers | SX, LX, TX Modules

Discover reliable and versatile 1G SFP optical transceivers fully compatible with Cisco, Huawei, Juniper, Arista, and more. Choose from SX, LX, and TX modules.

Fibre Optic Transmitters, Long Distance | RS

Fibre optic transmitters are used for a range of communications applications, such as in the transmission of telephone signals, internet, and cable television. Types of fibre optic transmitters Fibre optic

Finisar FTLF1318P3BTL | 1G LR Universal SFP Transceiver

Description Finisar 1G SFP Transceiver Module not only delivers high-performance data transmission over a distance of up to 10km, designed to be highly versatile and compatible with a wide range of

1 Gb/s Fibre Optic Transmitters, Receivers, Transceivers

1 Gb/s Fibre Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for 1 Gb/s Fibre Optic Transmitters, Receivers, Transceivers.

Optical Transceivers

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

Discover high-performance optical transceivers at T1 Nexus. Our multi-coded transceivers support all major form factors and speeds, including SFP, QSFP, and OSFP, with data rates from 1G to 800G.

SFP FE/1G OTDR 80km 23dB CWDM-E

The SO-SFP-1G-O-Cxx-E is an SFP form-factor transceiver for OSC (Optical Supervisory Channel) and OTDR (Optical Time Domain Reflectometer) applications. The transceiver operates as a OSC

Top Optical Transceiver Manufacturers List (2024)

Explore the top optical transceiver manufacturers and their market share. Stay informed about revenue figures and the latest developments in the

A Comprehensive Guide to Understanding 1G Optical Modules and

1G optical modules play a vital role in modern networking, offering high-speed, reliable, and scalable data transmission. By understanding the different types, inner mechanisms, and

1G SFP Optical Transceivers | Transceiver Modules

Store.QSFPTEK 1G SFP transceivers provide wide selection for various Gigabit Ethernet applications, such as 100+ vendors compatibility, copper/fiber, SMF/MMF, 100m to 80km.

Fiber Optic Transmitters, Receivers, Transceivers – Mouser

Fiber Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Fiber Optic Transmitters, Receivers, Transceivers.
