24-port ST-port ODF fiber optic distribution frame

Overview

The 24 port fiber optic ODF unit is the convenient cable management for fiber connections, supervising and maintenance. All kinds of types and specifications are available. Its box body is made of high quality cold-rolled steel material, and the surface of the product uses smooth electrostatic praying processing. 2 mm Thickness, ﬀ nvironment temperature: -40°C ~Optical Distribution Frame (ODF) is a rack-mounted fiber management unit designed for high-density, secure, and efficient cable organization in fiber optic networks. Protect and organize your joints and fiber optic connections with the accessories included in. The ODF rack mount fiber optic enclosure is designed to provide a distribution point to feed a high capacity of fiber optic cables to other closets or zones. The enclosure has a swing-out door with a padded lock.
