3-Year Warranty PoE Switch 400G

Overview

P-OS-400G-EE-S3 is applicable to standard maintenance support for one 400G switch within 3 years. During each Maintenance Term, FS will provide configuring or operating PicOS®, error corrections, software updates & upgrades, and other extensive network technology services. CloudEngine 9800 series switches are high-performance 400/100G Ethernet switches designed for data center networks, featuring high-density 400 GE or 100 GE ports and low latency. With 32 ports, it is well suited for spine, aggregation, and high-capacity. With advanced Layer 2 and Layer 3 features, including VLAN, QoS, and Link Aggregation, our switches optimize high-bandwidth and low-latency applications, providing you with a powerful and efficient data center network. Supporting both copper and fiber connectivity options, our modular designs offer. PoE+ PSE. The switch is ideal for powering PDs such as security cameras, wireless access points, building access devices, and automation equipment in harsh environments.
