50kW wall-mounted energy storage cabinet for photovoltaic power plants

Overview

Designed for factories, commercial buildings and distributed solar projects, this 50kW / 100kWh C&I energy storage system delivers reliable peak shaving, backup power and intelligent energy management in one integrated cabinet. Energy Cube 50kW-100kWh C&i ESS integrates photovoltaic inverters and a 100 kWh energy storage system. It includes battery cells, Battery Management System (BMS), photovoltaic inverters, fire protec Individual pricing for large scale projects and wholesale demands is available. It can fully control the operation status and. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands. 20A PV input current per string, compatible with all PV modules.
