A comprehensive list of outdoor electrical distribution box prices in Eastern Europe

Overview

The electrical distribution board is designed for electrical installations. Its high protection rating and gasket allow the box to be used in outdoor conditions.

Key Takeaways

Outdoor electrical distribution boxes in Europe typically range from $50 to $1,500 depending on size, material, voltage rating, and customization options.

General Pricing Overview

Outdoor distribution boxes, designed for medium voltage and weatherproof applications, vary widely in price based on specifications and intended use. Standard small to medium-sized boxes suitable for residential or light commercial use generally start around $50–$200, while larger, industrial-grade or utility boxes with advanced features such as fault interrupters, vacuum switches, and tamper-resistant enclosures can cost $500–$1,500 or more.

Factors Affecting Price

Material and Construction: Boxes made from durable thermoplastics or stainless steel are more expensive due to enhanced weather resistance and longevity. Voltage and Amperage Ratings: Higher voltage or three-phase systems increase cost, especially for outdoor-rated enclosures.

P Protection Class: Outdoor boxes with IP65 or higher ratings for dust and water resistance carry premium pricing. Customization: Options such as specific mounting configurations, integrated monitoring, or specialized labeling can significantly affect the price. Quantity and Supplier: Bulk orders from European wholesalers or manufacturers like Weisho Electric or Alibaba suppliers may reduce unit cost, while small orders or samples are priced higher.

Supplier ExamplesSENTAL Export GmbH offers a wide range of indoor and outdoor distribution boxes suitable for European standards, with custom inquiries handled via email or phone. Intratec Shop provides various IP-rated outdoor boxes with accessories like WAGO terminals and cable glands, suitable for residential and commercial installations. Weisho Electric specializes in medium voltage outdoor cable distribution boxes, fully weatherproof and customizable, with delivery times of 10–15 business days for standard units and 3–5 weeks for custom orders.

Alibaba Europe Suppliers list wholesale electrical boxes ranging from $0. 5 to $149 for standard enclosures, with options for sheet metal or stainless steel fabrication.

Practical Considerations

Ensure compliance with IEC 60670 and local electrical codes in Eastern Europe. Consider long-term maintenance and energy efficiency, as advanced monitoring features may increase upfront cost but reduce operational expenses. For large-scale projects, negotiate bulk pricing and delivery terms directly with manufacturers to optimize cost.

By evaluating these factors, buyers in Eastern Europe can select outdoor distribution boxes that balance cost, durability, and compliance for residential, commercial, or industrial applications.
