Afghanistan optical cable core

Overview

The domestic length of the optical fiber network is currently around 6000 km. TELECOMMUNICATIONS COMPANY AFGHAN TELECOM has floated a tender for Procurement of 235 kilometers of 6-core fiber optic cable. CommScope bundles hybrid cabling to your custom specifications, using our high-performance fiber-optic, unshielded. Afghanistan is fast developing into a major trade and transit hub for subsea and transcontinental communication. Once completed, the 4,600 Afghan Fiber Optic Ring (also known as the Afghan National Civil Optical Fiber Cable-OFC ring network) within the broader regional “Digital Silk Road” aims to. The national optical fiber network has been built at a total cost of 152 million dollars with a capacity of 36 cores fiber with a length of 5700 km. It Is Supplied Non-sterile And Is Not Designed To Be Sterilized (e., Not Compatible With Autoclave, Gamma, or EtO). Therefore, The Material And Process Must Ensure The Highest Levels Of Purity, Chemical Inertness, And. Optical Fiber has brought a revolution in the world of telecommunication and Power Control Systems.
