Aluminum Alloy Cable Management Frame Selection Guide

Overview

Aluminum Alloy Wire & Cable Management – MouserAluminum Alloy Wire & Cable Management are available at Mouser Electronics. Mouser offers inventory, pricing.

Key Takeaways

Aluminum alloy cable management frames are available as 3D printable models, CAD designs, and commercial products compatible with T-slot aluminum extrusions. 3D Printable ModelsYou can find thousands of 3D printable aluminum frame cable management models suitable for DIY projects and custom setups. Platforms like Yeggi offer over 5,000 models that can be printed and adapted to your specific frame dimensions.

These models often include cable holders, clips, and brackets designed to slide onto aluminum extrusions or attach to flat surfaces.

CAD and Engineering Models

For professional or industrial applications, GrabCAD provides millions of free CAD designs and 3D models of aluminum frames and cable management components. These files are compatible with software like SolidWorks, AutoCAD, and Fusion 360, allowing engineers to integrate cable management solutions directly into their designs.

Commercial Aluminum Alloy Cable Management

Companies like Mouser Electronics offer ready-made aluminum alloy wire and cable management products, including trays, channels, and brackets. These products come with datasheets, pricing, and inventory information, making them suitable for industrial or commercial installations.

Extrusion-

Compatible Models

For modular setups using 80/20 aluminum extrusions, there are specialized cable holders and brackets designed to fit T-slot profiles. For example, 20x20 mm or 40x40 mm extrusions can accommodate sliding cable holders that secure with a single screw, providing a strong and adjustable solution. These models are often available as 3D printable files or CAD designs.

Product Drawings and Specifications

Manufacturers like Corning provide detailed frame and cable management product drawings in PDF, DXF, VSS, and BIM formats. These resources are useful for planning installations, ensuring compatibility, and integrating cable management into larger systems.

Summary

Whether you are looking for DIY 3D printable models, professional CAD designs, or commercial aluminum alloy cable management products, there are extensive resources available. Key considerations include the type of aluminum extrusion, mounting method, and whether you need a custom or off-the-shelf solution.

Aluminum Alloy Wire & Cable Management – Mouser

Aluminum Alloy Wire & Cable Management are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Aluminum Alloy Wire & Cable Management.

Aluminium Cables & Wires

Suitable for indoor installation and in cable ducts, outdoors, underground and in water as well as for installation on cable trays for industries, switch-boards and power stations.

Product Catalogue Cable Management Solutions

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

ABB delivers the complete, versatile solution for cable management, with straight sections, fittings, and covers etc., developed to overcome the design constraints found in all kinds of buildings and locations.

CABLE MANAGEMENT

voestalpine Metsec Cable Management specialises in the manufacture of cable containment and support systems for the mechanical and electrical services industry. Its product range includes cable

Series 1 to 5 Aluminum and Steel

Service Advisor: Each part of our selection chart is shown in colors. If any section of a part number is a different color, the part will typically ship with the longer lead time represented by the colors.

Electrical Installation & Cable Management

T-slotted modular aluminum profiles simalar to bosch profiles, 8020 profiles, item profiles. Distributors include amtec, modular aluminum technologies

Horizontal & Vertical Cable Managers

Organize network infrastructure with CommScope Horizontal and Vertical Cable Management Kits. Sturdy aluminum structures, troughs, spools, and trays keep cables secure and concealed.

B-Line series Cable Tray Design Considerations

Our Cable Tray Design Considerations Guide details key factors to consider when designing cable tray systems for industrial and commercial applications. It also demonstrates how Eaton''s solutions and

Guide_Cable_Management_Track

Heavier cables should be placed towards the outside of the cable track, while lighter ones should occupy the center of the cable track. When the cable track is side mounted, always place the larger cable

Cablofil Cable Management | Legrand

Build a cable management system with Cablofil wire mesh cable tray, ladder cable tray, prefab assemblies for branch circuit wiring, fasteners, and accessories.

Aluminium Structural Design -

This chapter concern aluminium plate structures and extrusions primarily applicable to aluminium structures in buildings, civil and structural engineering works such as bridges, hydraulic and offshore
