Aluminum Profile Cable Tray Companies

Overview

Need lightweight, corrosion-resistant cable management? Discover leading aluminium cable tray manufacturers for industrial applications. Compare suppliers and get custom quotes today!

Key Takeaways

Leading aluminum cable tray brands include Niedax Group, MP Husky, EAE Electric, and other specialized manufacturers offering certified, lightweight, and corrosion-resistant solutions.

Key Brands and Manufacturers

Niedax Group: Offers a wide range of cable management systems including aluminum, steel, PVC, and GRP trays. They provide full-service solutions with technical consulting, planning, and installation support, operating globally across Europe, Asia, America, and Australia.

M

P Husky: Specializes in aluminum cable trays that are lighter than steel, CSA certified, UL listed, and compliant with NEMA standards, making them easier to install and suitable for industrial and commercial applications.

EA

E Electric: Provides aluminum cable trays and ladders with high load capacity, corrosion resistance, and thermal conductivity. Their products are designed for indoor and outdoor use, offering durability, flexibility, and eco-friendly cable management solutions. Other notable brands: Ebo Systems, Heron Innovations, and Fiber Home AG are recognized for specialized cable tray profiles and solutions, including GRP and aluminum options for industrial and data center applications.

Advantages of Aluminum Cable Trays

Lightweight: Approximately half the weight of steel, simplifying installation and reducing structural load. Corrosion-resistant: Ideal for outdoor, marine, and harsh industrial environments. Fire safety: Resistant to fire and does not emit toxic gases.

Thermal conductivity: Helps dissipate heat, preventing cable overheating and extending cable life. Versatile designs: Ladder trays, perforated trays, solid bottom trays, and wire mesh trays cater to different cable support and ventilation needs. Industry Standards and CertificationsNEMA VE-1: Defines specifications for metal cable trays in North America, including load capacities and construction classes.

IE

C 61537: International standard for cable tray systems, widely applied in Europe and Asia.

UL and CS

A certifications: Ensure safety and compliance for global and Canadian markets. These brands and certifications ensure that aluminum cable trays are durable, safe, and suitable for a wide range of industrial, commercial, and offshore applications.
