Bahamas cable trays are available in a full range of sizes

Overview

Being one of the trusted Galvanized Cable Tray Exporters and Suppliers in Bahamas, we promise you the timely delivery and after-sale support.

Key Takeaways

Cable trays in the Bahamas are available in various standard types, materials, and sizes, including ladder, perforated, and trough designs, suitable for residential, commercial, and industrial applications.

Types of Cable Trays

In the Bahamas, standard cable trays are commonly available in the following types: Ladder Cable Trays: Ideal for heavy-duty applications, providing excellent support and ventilation for large bundles of cables. Perforated Cable Trays: Feature holes along the tray for better airflow and heat dissipation, suitable for medium loads. Trough Cable Trays: Solid or partially perforated, used for lighter loads or where additional protection is needed.

PV

C and Stainless Steel Trays: Used in environments requiring corrosion resistance, such as coastal areas.

Materials and Durability

Cable trays in the Bahamas are manufactured from galvanized steel, stainless steel, FRP (Fiber Reinforced Plastic), and PVC, offering durability and resistance to corrosion in humid or marine environments. Galvanized steel is commonly used for longevity, while FRP and PVC are preferred for chemical resistance and lightweight installations.

Features and Standards

Open design for easy cable installation and maintenance. Corrosion-resistant coatings to withstand tropical climates. Flexible mounting options for walls, ceilings, or underfloor installations.

Compliance with national and international safety standards, minimizing electrical hazards and fire risks.

Suppliers and Manufacturers

Several reputable suppliers and manufacturers operate in the Bahamas: Brilltech Engineers Pvt. Ltd.: Offers ladder, perforated, PVC, and stainless steel cable trays with customized solutions for different sectors. Cable House: Provides durable and reliable cable trays manufactured with modern technology and high-quality materials.

Jeetmull Jaichandlall (P) Ltd.: Specializes in wire mesh and cable trays with various sizes, shapes, and configurations. Local distributors: Platforms like go4WorldBusiness connect buyers with verified suppliers for bulk orders.

Applications

Standard cable trays in the Bahamas are used in: Residential and commercial buildings for electrical wiring management. Industrial facilities for heavy-duty power and communication cables. Renovation and retrofit projects, ensuring safe and organized cable routing.

These cable trays provide efficient cable support, heat dissipation, and easy maintenance, making them a reliable choice for electrical infrastructure in the Bahamas.
