Barbados wholesale price for 4-core fiber optic splice box

Overview

Shop the best selection of FTTH 4 Core Fiber Optic Termination Box and enjoy fast shipping worldwide from Ubuy Barbados.

Key Takeaways

A 4-core fiber optic splice box typically costs between $15 and $40 USD per unit internationally, depending on features and supplier, with local Barbados pricing varying based on import and distributor markups.

Product Overview

A 4-core fiber optic splice box is a compact enclosure designed for fiber splicing, distribution, and protection in FTTx networks. It integrates fiber splicing, storage, and cable management into a single unit, ensuring reliable connectivity and protection against environmental hazards such as water, dust, and UV exposure. Common features include: Material: High-strength ABS or polycarbonate for durability and anti-aging properties.

I

P Rating: Often IP55 or higher, providing dust and water resistance. Compatibility: Supports SC or PLC adapters, suitable for indoor and outdoor installations. Installation: Wall-mounted or pole-mounted options with multiple cable entry points for flexible deployment.

Capacity: Supports up to 4-core fiber splicing and termination, with organized pathways for pigtails and patch cords.

Typical Pricing

International suppliers list 4-core fiber optic splice boxes in the range of $15–$40 USD per unit, depending on quality, IP rating, and additional features like flip-up distribution panels or cassette-type SC adapter installation. Bulk orders may reduce the per-unit cost, but shipping and import duties to Barbados can increase the final price.

Purchasing in Barbados

To obtain wholesale pricing in Barbados, consider: Contacting local telecom distributors or electrical supply companies. Checking regional suppliers in the Caribbean who ship to Barbados. Requesting bulk quotes from international suppliers like Alibaba, ME Fiber Optic, or Fibconet, specifying delivery to Barbados to account for shipping and customs fees.

Recommendations

Verify the IP rating and material to ensure suitability for outdoor or harsh environments. Confirm adapter type compatibility (SC or PLC) with your existing network. Request warranty and support details, as many suppliers offer 1–2 years for fiber components.

Compare shipping costs and lead times to Barbados to optimize total procurement cost. By considering these factors, you can select a reliable 4-core fiber optic splice box that meets both technical and budgetary requirements for deployment in Barbados.
