G trays are UV-stabilized, fire-retardant, and highly durable, suitable for power plants, refineries, and chemical industries. They also offer a wide range of fittings and accessories for complete cable management solutions (EFG Composites).

Ebo Systems

Ebo Systems, part of the Niedax Group, has over 60 years of experience in cable management.

Their GR

P cable trays are engineered for extreme temperatures, chemical exposure, and heavy loads, using glass fiber reinforced polyester. Ebo Systems provides both continuous pultrusion and hot pressing manufacturing methods, ensuring long-lasting performance and reliability. They also offer technical advice, planning, and installation support for complex projects (Ebo Systems).

Brilltech Engineers

Brilltech Engineers supplies fiberglass cable trays in Belgium, alongside galvanized steel and stainless steel options. Their trays are designed for enhanced safety, airflow, and cable protection, and they provide installation support and system design assistance. Brilltech emphasizes compliance with industry standards and offers a variety of sizes and styles for different project requirements (Brilltech Engineers).

Summary

For high-quality fiberglass cable trays in Belgium, these manufacturers are recommended based on their product durability, corrosion resistance, customization options, and technical support: Trayco – Local Belgian expertise and tailored solutionsEFG Composites – Pultruded fiberglass trays for corrosive environmentsEbo Systems – GRP trays for extreme conditions with global experienceBrilltech Engineers – Versatile fiberglass trays with installation support These companies provide reliable options for industrial, commercial, and specialized applications, ensuring long-term performance and compliance with safety standards.
