Canadian Cable Tray Manufacturing

Overview

Leading Cable Tray Supplier in Canada Custom designed, high quality cable tray systems which are reliable, robust and cost effective. CSA and UL certified.

Key Takeaways

Top Canadian cable tray manufacturers include Superior Tray, Unitray, Graybar Canada, Zip Tray, Lumen, Niedax CER, and MP Husky, offering CSA-compliant solutions for industrial and commercial projects.

Leading Manufacturers and Their Offerings

Superior Tray is a prominent Canadian manufacturer providing a wide range of cable management products, including ladder trays, solid bottom trays, and perforated trays. They specialize in both standard and custom systems suitable for construction, telecommunications, and industrial projects, with materials such as steel and aluminum designed for durability and flexibility. Unitray manufactures CSA-approved aluminum cable trays in Class C, D, and E, with standard lengths of 3m, 5m, and 6m.

Their products are engineered for easy installation and long-lasting performance, and the company maintains ISO 9001, ISO 14001, and OHSAS 18001 certifications. Graybar Canada and Lumen also provide reliable cable tray solutions, catering to commercial and industrial electrical installations, though specific product details vary by distributor. Zip Tray offers lightweight cable tray systems designed for fast, drill-free installation, making them suitable for projects requiring quick deployment and minimal labor.

Niedax CE

R specializes in CSA-approved cable management systems, including cable ladders, basket trays, channel trays, and underfloor ducts. They emphasize practical, cost-effective solutions and collaborative product development to meet unique project requirements.

M

P Husky supplies fiberglass, steel, and aluminum cable trays that meet or exceed CSA, NEMA, UL, and CTI standards. Their systems are widely used across industries and are known for compliance and reliability.

Key Considerations

When selecting a Canadian cable tray manufacturer, consider: Material and durability: Steel, aluminum, or fiberglass depending on environmental conditions. Tray type: Ladder, perforated, solid bottom, or basket trays for specific cable support needs. Compliance: CSA, NEMA, UL, and CTI certifications ensure safety and performance.

Installation: Some systems, like Zip Tray, offer fast, drill-free installation for efficiency. Customization: Manufacturers like Superior Tray and Unitray provide custom solutions for specialized projects. These manufacturers collectively cover a broad spectrum of cable management needs, from standard installations to complex industrial environments, ensuring safety, efficiency, and long-term reliability.
