Canadian cable tray support sales

Overview

Wire Cable Trays, Wire Management Baskets & AccessoriesCable trays and baskets are designed to help support and route cable bundles in an organized manner.

Key Takeaways

Canada offers a variety of CSA-compliant cable tray supports from leading suppliers like Unitray, WESCO Canada, MP Husky, Cabletiesandmore, and KableKontrol.

Key Suppliers and Offerings

Unitray is a major Canadian manufacturer of aluminum cable trays and supports, offering CSA-approved Class C, D, and E trays in standard lengths of 3m, 5m, and 6m. They provide high-quality products with ISO-certified manufacturing and CNC sheet metal capabilities, ensuring fast turnaround and customization options.

WESC

O Canada supplies a wide range of aluminum cable trays, splice plates, end closures, and covers. Their products include straight, expansion, and vertical adjustable styles, with siderail heights from 4 to 6 inches. Many items come packaged with zinc-plated hardware for secure installation.

M

P Husky specializes in CSA-compliant fiberglass, steel, and aluminum cable tray systems suitable for industrial and commercial applications. Their products meet or exceed CSA, NEMA, UL, and CTI standards, making them ideal for projects requiring strict regulatory compliance. Cabletiesandmore offers wire basket cable trays and accessories, including electro-zinc coated steel options for corrosion resistance.

Their systems are customizable in size and grid pattern, suitable for fiber optic networks or raised floor installations, with economical options for cost-sensitive projects.

Kable

Kontrol provides a broad selection of durable cable trays for residential and commercial use, including offices, data centers, and network rooms. Their trays help organize cables safely, reduce fire hazards, and improve aesthetics.

Considerations for Purchase

Material: Aluminum, steel, or fiberglass depending on load, environment, and corrosion resistance. Compliance: Ensure CSA approval for Canadian projects; some suppliers also meet UL, NEMA, and CTI standards. Accessories: Splice plates, end closures, covers, and mounting hardware are often sold separately.

Customization: Many suppliers offer custom lengths, widths, and configurations to fit specific project needs. For purchasing, it is recommended to contact local representatives or distributors for pricing, availability, and technical support, as some suppliers require account registration for detailed product information.
