Certified 12-core fiber optic patch panel

Overview

Fiber Patch Panel 12 Core is constructed with the highest quality materials, including sturdy aluminum alloy and durable plastic. This means it is built to last and can withstand the rigors of daily use. Features: ● 19′ standard mounting, available for all kinds of rack and cabinet. Singlemode LC/LC Quad Fiber Adapters, UL/CE. Device includes a splice tray to allow fusion splicing of field. FIBCONET offers wall-mounted and rack-mounted fiber optic patch panels for managing fiber optic cables. Full patching platforms include FX ECX for LAN environments, FX UHD for high-density fiber channels and the DCX System used primarily in data centers where high amounts of fiber connections and density are the key requirements, as in optical. The ODF-HL24-24SC/PJ Fiber Optic Patch Panel is a high-performance solution designed for efficient fiber optic splicing, distribution, and management.
