Certified optical module 1G

Overview

FS Gigabit SFP module solutions provide fibre and copper connections up to 160km, includes 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-EX, 1000BASE-ZX, 1000BASE-T on a port-by-port basis.

Key Takeaways

Certified 1G optical modules are SFP transceivers designed for reliable 1 Gbps data transmission over fiber or copper, with standards compliance and vendor certification ensuring interoperability and performance. Overview of 1G SFP ModulesA 1G SFP (Small Form-factor Pluggable) module is a compact, hot-swappable transceiver that converts electrical signals from network devices into optical signals for fiber transmission or electrical signals for copper links, supporting 1 gigabit per second data rates. These modules are widely used in enterprise networks, data centers, campus infrastructures, and industrial communication systems where reliability and compatibility are critical.

Types and Transmission Media1

G SF

P modules are categorized based on the transmission medium and interface standard: Fiber-optic SFPs: Include 1000BASE-SX, 1000BASE-LX, 1000BASE-EX, and 1000BASE-ZX, designed for different distances and fiber types. Multi-mode fiber (MMF) modules typically support distances up to 550 meters, while single-mode fiber (SMF) modules can reach tens of kilometers.

Copper SF

Ps: Use standard RJ45 interfaces for short-range connections over twisted-pair cables. Certified modules, such as the Kramer SFP1-MM-D, are tested for high-quality transmission over multimode fiber with LC connectors and support 1. 25 Gbps signals, ensuring compliance with industry standards and vendor interoperability.

Key Features of Certified 1G Optical ModulesHot-swappable: Can be installed or replaced without powering down equipment, minimizing network downtime. Standards compliance: Certified modules meet IEEE and IEC/EN standards, ensuring safe and reliable operation. Connector type: Typically LC duplex for fiber modules.

Transmission distance: Multi-mode modules up to 550 meters; single-mode modules can reach 80 km or more depending on the model. Power and safety: Many certified modules are Class 1 laser products, compliant with IEC/EN 60825-1: 2014, ensuring safe operation.

Applications

Certified 1G SFP modules are ideal for: Access-layer switching and legacy network integration. Long-distance fiber links in campus or metropolitan networks. Industrial and enterprise networks requiring stable, low-latency connections.

Replacement or alternative to OEM modules while maintaining interoperability and warranty compliance.

Selection Considerations

When choosing a certified 1G optical module, consider: Fiber type (single-mode vs. multi-mode)Transmission distanceWavelength compatibilityEquipment compatibility (switches, routers, NICs)Operating environment (temperature, industrial conditions)Total cost of ownership including warranty and support. Certified 1G optical modules provide a reliable, standards-compliant solution for gigabit network connectivity, ensuring both performance and interoperability across diverse networking equipment.

1G SFP Transceivers | Mini-GBIC SFP Modules

FS gigabit ethernet transceiver solutions provide fibre or copper options including 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-T etc., from 100m to 160km, for

1000BASE SFP (mini-GBIC) Transceivers

FS Gigabit SFP module solutions provide fibre and copper connections up to 160km, includes 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-EX, 1000BASE-ZX, 1000BASE-T on a port-by-port basis.

Ultimate Guide to 1G SFP Module Selection

Learn how to choose the right 1G SFP module for your network. Our guide covers compatibility, distance, fiber type, cost, and vendor selection for optimal performance.

1G SFP Optical Transceiver Modules | Solid Optics

1G SFP optical transceiver modules for multi-mode and single-mode in distances ranging from 300 meters up to 80km with a limited lifetime warranty.

Cisco SFP Modules for Gigabit Ethernet Applications

This data sheet describes the benefits, specifications, and ordering information for the Cisco SFP Modules for Gigabit Ethernet Applications.

1G SFP Compatible Optical Transceiver Modules

Buy 1G SFP compatible optical transceiver modules. All 1G SFP compatible transceivers are certified for functionality, reliability and performance under rigorous testing parameters.

Optical Transceivers SFP SFP28 QSFP28 QSFP-DD 1G to 400G Range

OEM-compatible optical transceivers from 1G to 800G—SFP, SFP28, QSFP28, QSFP-DD & OSFP. MSA-compliant, TAA-certified, lifetime warranty. Find your module today.

1G SFP Optical Transceivers | SX, LX, TX Modules

Discover reliable and versatile 1G SFP optical transceivers fully compatible with Cisco, Huawei, Juniper, Arista, and more. Choose from SX, LX, and TX modules.
