Product Features and Options

Materials: Galvanized steel, stainless steel, aluminum, PVC, and FRP composites. Types: Ladder cable trays, perforated trays, raceways, and walkable trays for heavy-duty applications. Customization: Long-span lengths, width, height, and load capacity tailored to project needs.

Durability: Corrosion-resistant, robust construction suitable for harsh environments and industrial use. Accessories: Comprehensive range of bends, tees, crossovers, and brackets for flexible installation.

Considerations for Long-

Span Applications

When selecting a long-span cable tray, consider: Load capacity and span length to ensure structural integrity. Material choice based on environmental conditions (e.g., galvanized for outdoor use, FRP for chemical resistance). Ease of installation and availability of compatible fittings and accessories.

After-sales support for maintenance and replacement parts. Both Cable House and Brilltech Engineers Pvt. Ltd have experience supplying customized long-span cable trays in Chad, making them reliable options for industrial, commercial, and infrastructure projects.
