Comoros Optical Module Manufacturer

Overview

We are dedicated to developing and manufacturing fiber optic communication products ranging from passive to active categories for telecommunication networks, enterprise networks, and data centers.

Key Takeaways

For reliable optical modules in Comoros, consider suppliers like TradeKey-verified local distributors, ETK Kablo, KYM Cable, and specialized component management providers such as Comoros Electronics Solutions. Local and Regional SuppliersTradeKey lists verified Comoros-based suppliers offering SFP optical transceivers and fiber optic modules suitable for Fast Ethernet, SDH/SONET, and ATM networks. These modules feature SC-Duplex connectors, 1310nm FP or 1550nm DFB lasers, and support transmission distances from 15km to 80km, making them suitable for both short- and long-range networking applications.

Trade

Key allows customization of minimum order quantities, which is useful for small-scale or pilot projects. Comoros Electronics Solutions (CES) specializes in component management and excess electronic component handling. They provide cloud-based inventory tracking and lifecycle management, which is particularly valuable for businesses in Comoros facing limited access to global suppliers.

CE

S can help reduce overstocking and ensure timely availability of optical modules and related components.

International Manufacturers

Several international suppliers ship to Comoros and offer high-quality optical modules: ETK Kablo (Turkey) provides fiber optic cables and low-voltage communication solutions with a strong global presence.

KY

M Cable (Turkey) is recognized for European-quality single-mode optical fibers and custom fiber optic products.

DIAMON

D specializes in high-precision optical connectors and is a trusted supplier for telecommunications worldwide. Firecomms offers advanced optical transceivers using compound and silicon semiconductor technology. These manufacturers are suitable if you require high-performance modules or customized solutions for large-scale or specialized networking projects.

Online Comparison Platforms

Platforms like MeetOptics allow you to search, compare, and source optical components globally, including custom jobs matched with industry experts. This is useful if you want to evaluate multiple suppliers and ensure compatibility with your existing network infrastructure.

Recommendations

For local support and inventory management: CES or TradeKey-verified Comoros distributors are ideal. For high-quality or specialized modules: Consider ETK Kablo, KYM Cable, DIAMOND, or Firecomms. For comparison and sourcing flexibility: Use MeetOptics to evaluate multiple suppliers and request quotes.

By combining local distributors for immediate availability with international manufacturers for high-performance or custom modules, you can ensure both reliability and scalability for your optical networking needs in Comoros.

Article Content

Optoelectronic Components Manufacturer & Exporters serving Comoros

We are currently developing a new range of silicon carbide (SiC) and gallium nitride (GaN) modules that offer higher efficiency and smaller footprints—perfect for the solar-powered microgrids being

10G SFP+ Manufacturer & Factories for Comoros

We are dedicated to developing and manufacturing fiber optic communication products ranging from passive to active categories for telecommunication networks, enterprise networks, and data centers.

300m SFP+ Optical Module

This is a standard SFP+ optical module. It uses two multi-mode optical fibers and the speed rate can up to 10Gbps, transmission distance up to 300m. This

City Product Center_1-Zhuhai Maizhi Laser Technology Co. LTD

Zhuhai Maizhi Laser Technology Co. LTD City Product Center_1 Zhuhai Maizhi Laser Technology Co., Ltd. is a company focusing on semiconductor laser products research and development and

comoros-fiber-optic-sensor-equipment-manufacturer

Our origins and special knowledge: Optoelectronics, fiber optic modules and devices. We manufacture mechatronic assemblies for you as CM and offer our own products in fiber optics and gas sensors...

Mode-Locked Lasers, F2F Modules and Locked Controllers

In addition to optical combs and optical comb systems suitable for various applications, IMRA can provide mode-locked lasers at the following wavelengths, f2f modules for optical combs, locking

Grp Products Companies And Suppliers Serving Comoros ...

Explore technical resources about outdoor telecom cabinets, SFP optical modules, industrial switches, base station energy management, emergency communication networks, and outdoor fiber access.

DSown Designers And Manufacturers Of Optical Transceiver

China''s leading developer of high-performance, high-reliability industrial signal processing chip technology. We use high-performance data converters to build intelligent bridges connecting the real
