# Complete List of Copper Cable Tray Models

## Overview

Our cable tray design considerations guide details key factors to consider when designing cable tray systems for industrial and commercial applications.

## Key Takeaways

Copper cable trays are available in a variety of straight sections, fittings, and accessories from major manufacturers like Eaton, ABB, Legrand, and Unitech, with detailed catalogs and CAD/BIM resources for selection.

### Eaton B-

### Line Series

Eaton offers a B-Line series of metallic cable trays, including copper options, with a wide range of straight sections, elbows, tees, reducers, and covers. Their submittal builder tool allows filtering by material, size, and type, and provides downloadable CAD, BIM, and PDMS files for design integration.

### The B-

Line series emphasizes strength-to-weight ratio and reduced structural support requirements, making it suitable for large-scale industrial and commercial installations.

## ABB T&

B Cable Tray SystemsABB provides T&B® cable trays with copper and other metallic finishes. Their catalog includes: Straight sections in various lengths and widthsLadder and ventilated bottom traysFittings such as elbows, tees, reducers, and joint connectorsCovers and accessories for protection and cable management The ABB CAD library offers over 4,000 drawings in multiple formats, enabling precise design and integration into Revit® or other CAD software. Legrand Cable TraysLegrand's technical guide lists cable trays and accessories with specifications for copper and metallic trays.

It includes: Mechanical and electrical characteristicsCompliance with UL, CE, and other international standardsRecommendations for installation and load ratings Legrand provides detailed illustrations and technical data for each tray type, ensuring proper selection for electrical and communication cabling.

## Unitech Cable Management Systems

Unitech offers a comprehensive range of cable trays and accessories, including copper trays suitable for MEP and industrial projects. Their catalog covers: Straight sections and ladder traysFittings such as elbows, tees, and risersCovers, joint connectors, and mounting accessories Unitech emphasizes regional availability across MENA and Europe, with technical support for project-specific requirements.

## Key Considerations

When selecting copper cable trays, consider: Tray type: ladder, ventilated, solid bottomDimensions: width, height, and lengthFittings: elbows, tees, reducers, risersStandards compliance: UL, NEMA, IEC, ASTMInstallation environment: indoor, outdoor, corrosive conditions For a complete and up-to-date list, it is recommended to access the manufacturers' catalogs and submittal tools directly: Eaton B-Line series: Eaton Cable Tray ResourcesABB T&B CAD Library: ABB Cable Management SolutionsLegrand Technical Guide: Legrand Cable Trays PDFUnitech Catalog: Unitech Cable Trays PDF These resources provide detailed specifications, model numbers, and CAD/BIM files for copper cable trays, enabling engineers and designers to select the appropriate models for their projects.
