Cost of Trough-type Cable Trays in the Maldives

Overview

Cable Tray Cable Tray (9'6") SKU: 98046 METAL Model no: GC01-01 Brand: CH&Q Color: SILVER Specifications CH&Q – Cable Tray Bundle Cable Tray + Connector +.

Key Takeaways

Trough-type cable trays in the Maldives typically range from $10 to $50 per meter, depending on material, size, and supplier.

Price Range and Material Considerations

The cost of trough-type cable trays varies significantly based on the material used: Steel trays: Generally cost between $10–$30 per meter, offering durability and moderate corrosion resistance. Aluminum trays: Lightweight and rust-proof, priced around $20–$50 per meter. Fiberglass Reinforced Plastic (FRP/GRP) trays: Corrosion-resistant and suitable for harsh environments, often comparable to imported steel trays but with higher quality and lower maintenance.

Surface treatments such as hot-dip galvanizing (HDG), powder coating, or pre-galvanized finishes can increase the price due to enhanced corrosion protection. Local Suppliers in the MaldivesSeveral suppliers provide trough-type cable trays locally: Asters Maldives offers metal cable trays in various sizes and colors, including bundles with connectors and screws. Brilltech Engineers Pvt.

Ltd. manufactures and supplies standard and customized cable trays, catering to industrial and commercial projects.

Trade

Key Maldives lists FRP cable trays with high corrosion resistance and fire-retardant properties, suitable for construction projects.

Cost Influencing Factors

Order quantity: Bulk purchases can reduce per-meter costs by 20–40%. Shipping and import duties: Importing trays from China or other countries may reduce material costs but add shipping fees. Installation and labor: Skilled labor costs in the Maldives can affect the total project cost.

Customization: Special sizes, colors, or coatings increase the price.

Practical Tip

For a medium-scale project, expect steel trough-type trays around $15–$25 per meter locally, while aluminum or FRP trays may reach $40–$50 per meter. Contacting local suppliers like Asters or Brilltech for a quotation is recommended to get precise pricing based on project specifications and delivery timelines.
