Custom-made cable trays in East Africa

Overview

Cable Tray Manufacturer Addis Ababa Professional cable tray manufacturing in Addis Ababa, Ethiopia. We produce high-quality cable trays, ladders, and acces.

Key Takeaways

Custom-made cable trays in East Africa are available from local suppliers, with prices varying based on material, size, and finish, typically ranging from moderate to premium depending on specifications.

Materials and Types

Cable trays in East Africa are commonly fabricated from galvanized steel, stainless steel, and aluminum, with finishes including hot-dip galvanization, powder coating, and stainless steel grades 202/304/316. The main types include: Ladder cable trays – ideal for heavy-duty industrial applicationsMesh trays – suitable for flexible cable routing and ventilationVentilated trays – allow airflow to prevent overheatingSolid bottom trays – provide full protection for sensitive cables Custom trays can be tailored in thicknesses from 0. 6mm to 3.

0mm, lengths of 8 feet (2. 44 meters), and widths from 25mm to 100mm or more.

Pricing Factors

The cost of custom-made cable trays depends on several factors: Material type: Stainless steel and aluminum are more expensive than galvanized steel. Finish: Powder-coated or hot-dip galvanized trays cost more due to corrosion protection, especially for coastal or humid regions. Dimensions and load capacity: Larger or thicker trays designed for heavy cables increase the price.

Accessories: Bends, elbows, tees, reducers, and junction boxes add to the total cost. Customization: Unique designs or non-standard sizes typically carry a premium. Logistics: Delivery across East Africa (Kenya, Uganda, Tanzania, Rwanda, South Sudan) can affect the final price due to transport costs.

Supplier Options in East Africa

Several suppliers provide custom cable trays in the region: TDK Tech Store (Kenya) – Offers custom-made trays and delivers across East Africa, including Uganda, Tanzania, Rwanda, and South Sudan. Duff Engineering Ltd (Kenya) – Provides standard and custom trays for industrial and commercial applications, with competitive pricing. Hutaib Electrical (South Africa) – Supplies a wide range of cable trays and accessories, including custom finishes and stainless steel options, with export capabilities to East Africa.

Cost Estimates

While exact prices vary, galvanized steel ladder trays in standard sizes typically start from USD 20–50 per meter, while stainless steel or powder-coated custom trays can range from USD 50–150 per meter, depending on thickness, width, and complexity of design. Accessories and installation services are additional.

Recommendations

Calculate Total Cost of Ownership (TCO): Consider initial price, maintenance, and replacement over 10–15 years. Select corrosion-resistant finishes for coastal or humid areas. Work with reputable suppliers to ensure compliance with industrial standards and reliable delivery.

Custom-made cable trays in East Africa are widely available, and prices are influenced by material, finish, size, and logistics. Engaging local suppliers with regional delivery experience can optimize both cost and durability.
