Custom-made fiber optic cable clips price

Overview

Fiber Optic Clips Fiber optic clip for outdoor fiber deployment, press-fit design, 5-8mm cable size, wholesale at average price $2.49, start with MOQ of 10.

Key Takeaways

The custom price of fiber optic cable clips varies widely depending on material, size, type, and quantity, typically ranging from a few cents per clip for standard plastic types to several dollars for heavy-duty or specialized clips.

Factors Affecting Custom Pricing

Material: Clips are made from nylon, PVC, ABS, stainless steel, or rubber. Nylon and thermoplastics are cost-effective for indoor use, while stainless steel or UV-resistant nylon for outdoor or industrial applications increases the price. Size and Capacity: Clips are designed to hold different cable diameters (e.g., 2.

9 mm to 6 mm) and multiple cables per clip. Larger or multi-slot clips cost more due to increased material and manufacturing complexity. Type and Design: Options include adhesive-mounted, screw-mounted, or clip-on designs.

Clip-on or modular designs for easy installation may carry a premium. Durability and Environmental Resistance: Clips intended for harsh environments (UV exposure, moisture, temperature fluctuations) or heavy-duty applications are priced higher than standard indoor clips. Quantity and Bulk Orders: Purchasing in bulk reduces the per-unit cost.

Suppliers like Alibaba and Mouser offer volume discounts, while smaller orders from Amazon or specialty suppliers may be more expensive per clip. Customization: Custom colors, sizes, or branding can increase costs due to tooling and production adjustments. Custom orders are typically quoted individually by suppliers.

Typical Price Ranges

Standard plastic clips: $0. 05–$0. 50 per clip for bulk ordersHeavy-duty or stainless steel clips: $1–$5 per clip depending on size and environmental resistanceCustom or specialized designs: Prices are negotiated with suppliers and may exceed $5 per clip for small quantities Sourcing OptionsAlibaba: Wide range of customizable clips for industrial and commercial applications Essentra Components: Clip-on and adhesive-mounted options for telecom cabinets and data centers Mouser Electronics: Offers datasheets and pricing for standard clip types Amazon: Small kits and general-purpose clips for low-volume needs ShopFiber24: Focused on fiber optic connectors and compatible clips for plug-to-plug connections RecommendationsDetermine the cable diameter, environment, and installation method before requesting a quote.

For bulk or custom orders, contact suppliers directly to obtain a custom price quote. Ensure clips maintain the minimum bend radius to prevent signal loss and fiber damage. Consider durability and environmental resistance to avoid frequent replacements and network downtime.

By evaluating these factors, you can obtain a custom price tailored to your specific fiber optic installation needs.
