Customized Large-Span Low-Voltage Cable Trays from the Netherlands

Overview

These products are designed to carry heavier cable loads compared to the standard perforated cable trays. This product group offers easiness in vertical applications.

Key Takeaways

Niedax Group's Dutch subsidiary, Gouda Holland B. V., offers customized large-span low-voltage cable trays suitable for complex electrical installations.

Supplier Overview

Gouda Holland B. V., based in the Netherlands and part of the Niedax Group since 2013, specializes in cable support systems and can provide customized large-span solutions for low-voltage applications. Niedax Group itself is a global provider of cable management systems, offering steel, aluminum, PVC, and GRP trays, along with full technical consulting, planning, and installation services.

Their Dutch operations can handle project-specific requirements, including long-span trays, heavy cable loads, and special environmental conditions.

Product Features

Materials: Steel, aluminum, PVC, and glass fiber reinforced plastic (GRP) for corrosion resistance and durability. Design Flexibility: Customizable tray widths, lengths, and support spacing to accommodate large spans and complex routing. Load Capacity: Designed to carry low-voltage cables safely, including high-density installations in industrial or commercial settings.

Accessories: Complete range of brackets, fasteners, and connection components for secure installation and grounding. Environmental Considerations: Options for installations in areas with high humidity, industrial hygiene requirements, or seismic activity.

Applications

These cable trays are suitable for: Data centers and IT infrastructureIndustrial plants and manufacturing facilitiesFood processing and pharmaceutical plantsEnergy and utility projects requiring long-span, low-voltage cable managementAdditional ServicesNiedax and its Dutch subsidiary provide turnkey solutions, including: Project planning and engineering for cable routesConsideration of snow, wind, and special loadsInstallation supervision and maintenance support Alternative European OptionsOther European suppliers, such as Eurotray, also offer heavy-duty cable trays with vertical and horizontal adaptability, suitable for low-voltage applications and capable of handling large spans.

These systems include all necessary mounting and connection components, ensuring compliance with safety and electrical standards.

Conclusion

For customized large-span low-voltage cable trays from the Netherlands, Gouda Holland B. V. under the Niedax Group provides a reliable solution with full customization, high-quality materials, and comprehensive project support. For specialized industrial or commercial projects, their systems can be tailored to meet specific load, span, and environmental requirements.
