Data Center Cable Tray Suppliers

Overview

Find Data Center Cable Trays related suppliers, manufacturers, products and specifications on GlobalSpec - a trusted source of Data Center Cable Trays information.

Key Takeaways

Leading manufacturers of data center cable trays include Atkore, Basor Electric, Chalfant Manufacturing, PT Trias Indra Saputra, and Legrand, offering solutions for fiber optics, power, and telecommunication cabling.

Key Manufacturers and Their Offerings

Atkore International is a global leader in cable tray systems, providing a wide range of solutions for industrial, commercial, and data center applications, including ladder, perforated, and wire mesh trays suitable for high-density cabling. Basor Electric specializes in data center cable management, offering systems designed for fiber optic, UTP, video, alarm, and power cables. Their products focus on bend radius management, physical protection, and modular design, ensuring adaptability to evolving data center technologies.

Chalfant Manufacturing provides innovative cable tray systems, including self-connecting and walkable trays, emphasizing customized solutions and compliance with industry standards.

P

T Trias Indra Saputra and Sunil Engineering Corporation manufacture a variety of cable trays, including ladder, perforated, and FRP types, along with accessories and junction boxes, catering to both indoor and outdoor installations. Legrand (Cablofil brand), based in France, is known for wire mesh trays that are easy to install, flexible, and compliant with EN 61537 and ISO 9001 standards, making them suitable for complex data center environments.

Regional Considerations

Europe: Manufacturers like Niedax Group (Germany) and Spina Group (Italy) focus on high-quality, heavy-duty trays with sustainability and long-term durability. North America: Companies emphasize innovation, extensive product ranges, and compliance with local and international standards, ideal for industrial and data center projects. South America: Manufacturers such as Industrias Proa S.

A. and TechTray Latin America provide climate-resistant and corrosion-resistant solutions for diverse environments.

Product Types and Features

Data center cable trays are available in ladder, perforated, wire mesh, and trough designs, often made from galvanized steel, stainless steel, or FRP. Key features include: Support for high-density fiber optic and power cablingModular and open designs for flexible routingCompliance with safety and fire standardsAccessories like junction boxes, supports, and covers for complete cable management ConclusionFor data center projects, selecting a manufacturer depends on cable type, density, environmental conditions, and compliance requirements. Global leaders like Atkore, Basor Electric, Chalfant Manufacturing, and Legrand provide reliable, high-quality solutions, while regional manufacturers offer specialized products tailored to local standards and conditions.
