Delivery Date DAC High-Speed Cable NRZ

Overview

The 200G QSFP-DD DAC cable contains 16 high-speed copper pairs, each operating at data rates of up to 25Gb/s of NRZ signals. It is compliant with QSFP28 MSA and supports the SFF-8636 compliant I2C management interface. They have very good power consumption performance. Siemon offers a comprehensive line of High-Speed Cable Assemblies, including straight-through/breakout Direct Attach Cables (DAC), Active Copper Cables (ACC), Active Electrical Cables (AEC) and Active Optical Cables (AOC) in speeds up to 800G, in QSFP-DD, OSFP-FT (Finned Top), OSFP-RHS (Riding Heat. CablesTEC's Direct Attach Copper Cable (DAC) is the lowest cost solution for creating 10G-800G high-speed interconnect links for server/switch networks. DACs are widely used in data centers to connect servers and GPU computing systems to top-of-rack (TOR) switches for short distances within or. FS DAC, AOC and AEC cables are most used in data centers and enterprise networks for switches, servers, and storage interconnects within a rack. With high-speed, high-reliability transmission, FS twinax cables come in different lengths to support different transmission data rates, such as 1G, 10G. High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility. The Quad Small Form-factor Pluggable Double Density (QSFP-DD) Interconnect Solution is specifically designed to meet high-density. Supporting the latest high-speed standards, our pluggable I/O copper high speed cable assemblies are engineered for 112 Gbps and beyond. Our signal integrity (SI) and system architecture expertise allow us to provide one of the highest performing portfolios for QSFP-DD 112, QSFP28/56 and SFP28/56.

Nrz 200g High Speed Data Rate Qsfp-Dd Dac Shield Coaxial Cable

Brief DescriptionThe QSFP-DD Direct Attach Copper Cables are direct-attach network assemblies with QSFP-DD connectors. They have very good power consumption performance .They are suitable for

Data Center High-Speed DAC Cables – CablesTEC

Designed by the GIGALIGHT R&D team and manufactured by CablesTEC''s Yancheng factory, each cable has undergone rigorous performance testing.

DAC/AOC/ACC/AEC Cables

With high-speed, high-reliability transmission, FS twinax cables come in different lengths to support different transmission data rates, such as 1G, 10G, 25G, 50G, 200G, 400G, 800G, 1.6T.

Direct Attach Cable (DAC) Assemblies

High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility.

High-Speed Cable Assemblies

These products support aggregate data rates up to 800 Gbps per cable assembly. To support various requirements in data center and cloud computing by high density, backward compatibility, design

High Speed Cable Assemblies | High-Speed Interconnects, DAC, AOC

Independently tested to be interoperable with most major equipment manufacturers, Siemon interconnects deliver cost-effective, flexible support for your high-speed, direct attach equipment

200G QSFP28-DD Direct Attach Cable | AscentOptics

The 200G QSFP-DD DAC cable contains 16 high-speed copper pairs, each operating at data rates of up to 25Gb/s of NRZ signals. It is compliant with QSFP28 MSA and supports the SFF-8636 compliant

Direct Attach Copper (DAC) Cables

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

NVIDIA Mellanox LinkX InfiniBand DAC Cables and Splitters

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

NVIDIA ® Mellanox ® LinkX ® InfiniBand DAC cables are the lowest-cost way to create high-speed, low-latency 100G/EDR and 200G/HDR and 400G/NDR links in InfiniBand switching networks and for

What is DAC Cable? The Definitive Guide

A DAC cable is short for direct-attach copper cable. It is a pre-terminated Twinax copper cable assembly with two pluggable connectors,

InfiniBand Cables Explained: HDR vs NDR, QSFP56 vs

Complete 2025 guide to InfiniBand cables: HDR (200G) vs NDR (400G), QSFP56 vs OSFP/QSFP112 connectors, DAC vs AOC vs optics, distances.

200G QSFP56 AOC -Active Optical Cable

For data-intensive applications, speed, reliability, and cost-effectiveness are critical. 200G QSFP56 AOC cable excels in every aspect, providing fast, long-distance,

Your Ultimate Guide to DAC Cable – VCELINK

As a cost-saving alternative to optical transceivers, DAC cables allow for high-speed connectivity between devices over short distances via copper wires.

High Speed Cable Assemblies | High-Speed

Typical applications include data centers requiring reliable, low latency, high-quality cabling options. Independently tested to be interoperable with most major

High Speed Cable Assemblies | High-Speed Interconnects, DAC, AOC

Typical applications include data centers requiring reliable, low latency, high-quality cabling options. Independently tested to be interoperable with most major equipment manufacturers, Siemon

112G-ULR PAM4 SerDes PHY | Cadence

It enables reliable high-speed data transfer over backplane, direct-attached cable (DAC), chip-to-chip, and chip-to-module channels to support LR, MR, and VSR use cases.

An Introduction to 224G System Architecture

Molex Inception is a genderless 224G backplane system that provides a flexible and robust high-speed cable design for rack hardware architectures. Inception cable

2m (7ft) Dell Compatible 200G QSFP-DD 8 x 25G NRZ to 2 x 100G

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

Dell Compatible 200G QSFP-DD to 2x 100G QSFP28 DAC Breakout Cable (2-meter, Passive, QSFP-DD to 2x QSFP28, 28AWG) The Dell Compatible QSFP-DD to 2x 100G QSFP28 Direct Attach Cable
