Distribution Box APXH

Overview

The APXH7RG will run for a minimum of 90 minutes during a power outage and provides power to two APWR LED remote heads for up to 17 feet of egress coverage. Units are supplied with both red and green LEDs and red and green face inserts to provide deep letter colors and illumination. de compliant, thermoplastic LED solution for exit needs. The series has universal mounting flexibility (ceiling, wall, end), has field selectable red or green letter, single or double-sided faces and directional chevrons. Each component plays a specific role. Together, they make sure the electrical power distribution box works well and safely. Smart DB boxes have extra parts like energy monitoring units and communication modules. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. Options include a white or black housing and remote.
