Distribution box hanging rail

Overview

They serve as a standardized mounting support for terminal blocks, installation devices or relays - both in the distribution box and in the control cabinet. Their robust design and easy handling ensure secure, structured and time-saving mounting. Save time and labor: Can be used to install modular electrical devices by simply locking mechanical parts or sliding onto the DIN rails without having to separate panels to install each individual part, which can simplify wiring and increase installation speed, which in turn saves time and labor. Robuste Vollgummihängeverteiler mit 2 Ringschrauben Griffhaken aus Kunststoff an der Unterseite anschlussfertig verdrahtet Schutzart IP54 Kompakte Hängeverteiler aus schlagfestem Polyamid mit 4 Ringschrauben zur Deckenbefestigung max. Discover the offer of distribution boards for the realization of your electrical panels of the residential and the commercial sector. For mounting on support or top-hat rail (DIN rail TH35). Top-hat rail fastening mounted centrally, possibility of asymmetrical fastening. Loaded with FO adapters, ready for splicing, with.
