Double-layer cable tray supplier manufacturer

Overview

Find Verified Double Layer Cable Tray Manufacturer Suppliers. Buy premium Double Layer Cable Tray Manufacturer in bulk from verified wholesale suppliers.

Key Takeaways

Leading suppliers of double-layer cable trays include Eurostrut, Atkore, Eurotray, and the Niedax Group, offering customizable, high-load cable management solutions for industrial and commercial applications.

Key Suppliers and Manufacturers

Eurostrut provides a wide range of cable trays, including distribution trays and NATO-type models, suitable for multi-layer installations. They offer direct quotes and customization through their webshop, making them a practical choice for complex projects (Eurostrut). Atkore International manufactures solid-bottom and ventilated cable tray systems designed to securely hold and protect cables.

Their products are available in multiple sizes and configurations, supporting double-layer setups for heavy-duty applications (Atkore). Eurotray Support Systems specializes in cable management systems capable of carrying heavier cable loads than standard perforated trays. Their solutions are ideal for vertical applications, raised floors, and environments requiring high industrial hygiene, such as data centers and food manufacturing plants.

They provide all necessary mounting, connection, and suspension components for safe and efficient installation (Eurotray). Niedax Group offers steel, aluminum, PVC, and GRP cable management systems with a full range of accessories. They provide technical consulting, planning, and installation services, making them a full-service supplier for complex projects.

Their global presence ensures availability for large-scale industrial, energy, and infrastructure projects (Niedax Group).

Additional Sourcing Options

For broader options, B2B marketplaces like Tradewheel.com list multiple manufacturers of standard and custom cable trays, including galvanized, waterproof, and fiberglass models. These platforms allow buyers to compare quality, pricing, and customization options for double-layer cable trays from suppliers worldwide (B2B Headlines).

Considerations for Double-

Layer Cable Trays

Material: Steel, aluminum, GRP, or PVC depending on load, environment, and corrosion resistance. Load Capacity: Ensure the tray supports the combined weight of multiple cable layers. Ventilation: Ventilated trays help prevent overheating in high-density installations.

Customization: Some suppliers offer tailored solutions for specific industrial or data center requirements. Installation Support: Full-service providers can assist with planning, mounting, and compliance with safety standards. These suppliers and platforms provide reliable options for sourcing double-layer cable trays suitable for industrial, commercial, and specialized applications.
