Key Takeaways

Cables House, OPTIMAL CONNECTIVITY, Tempsens, and Panatech are key suppliers in Dubai for dual-core temperature measuring optical cable connectors and related specialized cables. Key Suppliers in Dubai1. Cables House Cables House is a leading Dubai-based supplier and manufacturer of fiber optic cables, including dual-core and multi-core options in single-mode and multimode configurations (FTTH, OM2, OM3, OM4).

They provide fiber optic accessories such as pigtails, patch cords, patch panels, and breakout boxes. Their offerings include Etisalat and DU-approved brands, and they also manufacture cables compatible with Belden specifications, which can be customized for temperature sensing applications. 2.

OPTIMAL CONNECTIVITY OPTIMAL CONNECTIVIT

Y specializes in fiber optic, RF, and electrical connectivity solutions. They offer technically demanding cable solutions for industrial, energy, solar, and infrastructure sectors. While primarily focused on high-quality European and American brands, they provide customized solutions that can integrate temperature measurement capabilities into optical cables.

3. Tempsens Tempsens is a global manufacturer of thermal engineering solutions, including specialized cables and temperature sensing devices such as thermocouples, RTDs, and infrared sensors. They offer tailored dual-core and multi-core cables designed for precise temperature monitoring in industrial applications, making them suitable for integration with optical fiber systems.

4. Panatech Panatech supplies high-performance thermocouples and temperature sensors in the UAE. They provide a wide range of sensor types, including K Type, J Type, and PT100, which can be integrated with dual-core optical cables for accurate temperature measurement in industrial environments.

Their products are designed for durability, fast response, and compatibility with harsh conditions.

Considerations for Selection

Customization: Ensure the supplier can provide dual-core optical cables with integrated temperature sensing tailored to your application. Certifications: Look for Etisalat or DU approvals for telecom-grade fiber optic cables. Industrial Compatibility: Verify that the cables and connectors meet environmental and operational requirements, such as high temperature, vibration resistance, and chemical exposure.

Support and Delivery: Suppliers like Cables House and Tempsens offer cut-to-length services, technical guidance, and prompt delivery across the UAE and GCC. For sourcing dual-core temperature measuring optical cable connectors in Dubai, Cables House is the most direct option for fiber optic cables, while Tempsens and Panatech provide specialized temperature sensing integration.
