EU Large-Span Cable Tray

Overview

EU series strengthened type cable trays can be used in all situations from low voltage to main power lines. Thanks to the special form on it, the reinforced carrying capacity is maximized. Thanks to the slots being recessed, burrs caused by molding are prevented from damaging. Cable trays are systems used for the safe transportation and protection of electrical cables, designed to fit the pathways within buildings and structural installations. Mechanical Support Systems New! Product weights are approximate values, may vary by ± 10%. A cathodic action occurs on cut surfaces (up to 1. 5mm) that protects against oxidation. First, the steel is chemical cleaned and roughened in order to achieve a good bond. Wide-span cable ladders and trays guide control and power cables in industrial halls, production facilities and power plants or in plant and tunnel construction to exactly where they are needed – flexibly, reliably and absolutely safely. If this coating is breached, the zinc will act as a sacrifcial anode, so that the iron is protected by the zinc (aka cathodic protection).

EU Series Strengthened Type Cable Trays

EU series strengthened type cable trays can be used in all situations from low voltage to main power lines. Thanks to the special form on it, the reinforced carrying capacity is maximized. Thanks to the

Joint large span set

Characteristic of this steel type is that – prior to mechanical deformation – it is

Wide-span Systems | PohlCon – Partner from start to future.

Wide-span cable trays are an integrated, highly flexible cable support system when used in combination with the matching formed parts, covers and system-specific accessories. The large selection of

Cable Tray Joint Large Span

Characteristic of this steel type is that – prior to mechanical deformation – it is given a zinc coating by means of a continuous dipping process. This zinc coating is

Eurostrut Cable Trays | cable tray, cable route and NATO tray

Cable trays for industrial and marine use. Includes distribution trays, cable routes and NATO-type models. Request a quote directly via our webshop.

Niedax Catalog for cable support systems

Sizes and designs can be customized and special dimensions are available on request. All systems are available in both high-quality steel and stainless steel versions. The various surface finishes ensure

Large Span Cable Trays Lay Heavy Cables in Industries

Different from normal cable trays, Large span cable tray has large supporting span with high loading capacities. Large span cable tray is assembled by pultruded

Large Span Cable Tray | Heavy Duty Cable Tray

Large span cable trays are designed to support heavy cable loads across long distances without intermediate supports. Made from high-strength galvanized

TOP 5 Cable Tray Manufacturers in Europe

Explore leading Cable Tray Manufacturers in Europe, offering durable, compliant solutions for industrial and commercial projects across various industries.

nauru-galvanized-cable-tray-span Manufacturer/Producer
