Enlarged panel for distribution box

Overview

Panel board extension boxes are designed to provide additional space for wiring, circuit breakers, and accessories within electrical distribution systems. Electrical control panels and distribution boxes are the backbone of modern electrical systems. From powering homes and industrial facilities to supporting medium-voltage infrastructure, these enclosures ensure safe, efficient, and reliable power distribution. Whether you're upgrading your home's electrical service, designing a commercial facility, or managing an industrial power system, selecting and sizing the right. Starting from compact boards for energy distribution applications up to floor standing energy supplying switchboards for huge sites of manufacturers or office buildings ABB offers a wide range of wall- and floor-mounted cabinets.
