Fiber Optic Communication Access Equipment Company

Overview

Our origins and special knowledge: Optoelectronics, fiber optic modules and devices. We manufacture mechatronic assemblies for you as CM and offer our own products in fiber optics and gas sensors...

Key Takeaways

Leading companies in fiber optic communication access equipment include Corning, Prysmian Group, CommScope, Panduit, Superior Essex, AFL, FiberOptics.com, FIS, Millennium, and North Sky Communications.

Major Manufacturers

Corning Inc. is a global leader in optical fiber and connectivity solutions, offering SMF-28® single-mode fiber, bend-insensitive fibers, and ultra-low-loss optical fiber for data centers, 5G networks, and enterprise applications, along with comprehensive training and technical support. Prysmian Group provides a wide range of fiber optic cables, including submarine systems, FTTx solutions, and high-density cables, with a strong global manufacturing presence and eco-friendly production processes.

Comm

Scope specializes in fiber optic infrastructure for broadband, enterprise, and 5G networks, offering 10G-PON and XGS-PON solutions, rollable ribbon cables, and complete FTTx systems. Panduit delivers high-performance indoor/outdoor fiber cables, pre-terminated solutions, and cable management systems for data centers and enterprise networks. Superior Essex Communications focuses on BEAD-compliant, domestically manufactured fiber optic cables for government-funded broadband projects, emphasizing sustainability and reliability.

AF

L (Advanced Fiber Logistics) provides OPGW fiber technology, data center solutions, and testing equipment, with ISO-certified facilities in the USA and internationally. Equipment Suppliers and Service ProvidersFiberOptics.com offers sales, rentals, and repairs of fiber optic equipment, including splicers, OTDRs, power meters, and Go-Kits, along with certified technical training through The Fiber School. Fiber Instrument Sales (FIS) supplies a wide range of fiber optic products, including assemblies, splicing tools, test equipment, enclosures, and OSP closures, with online ordering and training options.

Millennium provides fiber optic equipment, broadband materials, and rental services, supporting network builds from planning through deployment with engineering and supply chain expertise. North Sky Communications is a full-service telecommunications contractor offering fiber splicing, engineering, construction, maintenance, and wireless integration services, primarily in the Pacific Northwest and Northern California.

Regional Suppliers

For localized access, companies like Fiber Optics Components Equipment Systems in Moses Lake, WA, provide fiber optic components and systems with regional support. These companies collectively cover the full spectrum of fiber optic communication access equipment, from manufacturing high-performance cables to providing installation, testing, and maintenance services, making them suitable partners for telecom operators, data centers, and enterprise networks.

Article Content

Leading Network & Tech Solutions In NYC | Quantum

We install, terminate, fusion splice and certify all singlemode and multi-mode optical fiber. Our design and installation team participates in current training courses and are fully certified with Corning,

fiber optic communication equipment | B2B companies and suppliers ...

Our origins and special knowledge: Optoelectronics, fiber optic modules and devices. We manufacture mechatronic assemblies for you as CM and offer our own products in fiber optics and gas sensors...

The Best Fiber Connections | Easy Installation | Great

We design, manufacture, and supply a complete line of fiber optic connectivity products for communication networks.

Fiber Optic Components & Telecom Solutions_ Fiber

Fiber Electronics provides a wide range of fiber optic components and telecom solutions, with global shipping and expert support.

OCG fiber

Our facilities span over 450 miles of our own privately owned and operated fiber optic network. From Dark Fiber to Direct Internet Access, we offer an endless combination of products to better suit your

Fiber Optic Products Brand, Network Cabling Solutions

A premier global brand specializing in high-performance structured cabling systems and comprehensive fiber optic network solutions for data centers and enterprises.

Corning Optical Communications | Fiber Optic Connectivity Solutions ...

We design and manufacture a broad range of high-performance fiber optic components and integrated modules for original equipment manufacturers (OEMs) within the optical network equipment market.

High-Speed Fiber Internet Service Provider | Metronet

Bring Fiber-Optic Internet to Your City Drive Economic Growth and Boost Quality of Life Fiber infrastructure drives economic growth, attracts new businesses,

AI-Ready Networking & Secure Cloud Solutions

Power your business with our global fiber network. We provide secure networking, edge cloud and AI-ready infrastructure to connect people, data and
