Fiber Optic Fast Connector ESC250D

Overview

Designed for fast, accurate, and dependable optical fiber terminations, the ESC250D Fiber Optic Fast Connector is an environmentally friendly, field-installable optical connector suitable for FTTH and LAN networks. It is available in SC-APC and SC-UPC versions. It can provide Open flow and Pre-cast type of products, whose optical and mechanical specification meets the standard optical fiber connector. Proven mechanical splice technology ensuring precision fiber alignment, a factory pre-cleaved fiber stub and a proprietary index-matching gel combine to offer. Fiber Optic Fast Connector make fiber terminations quick, easy and reliable. These fiber optic connectors offer terminations without any hassles and require no epoxy, no polishing, no splicing, no heating and can achieve similar excellent transmission parameters as standard polishing and splicing. The SFP transceivers are high performance, cost effective modules supporting data-rate of 1. 25Gbps and 80km transmission distance with SMF. ESC250D?

fast connector can be SC/UPC or SC/APC, suitable for ftth drop.
