Fiber optic splice box ceiling wall

Overview

These aluminum enclosures are designed for high-density splice storage, with emphasis on proper fiber management and versatility of cable port seals and cable tie-down features. CommScope offers a complete line of easy-to-use access terminals, copper and fiber splice closures, patch closures and accessories to speed deployment. These boxes are well suited as optical cable splice collection points for DAS (Distributed Antenna Systems), MTU (Multi-Tenant Unit) commercial business applications, and MDU (Multi-Dwelling Unit). American Products offers a complete line of indoor wall-mount fiber enclosures engineered for splicing, termination, patching, and structured fiber management. Wall-mounted fiber optic cabinets are used to terminate optical fibers outside the 19" cabinets. outside plant cable and inbuilding cable (Optistrip™)).
