Fiji 10 Gigabit Optical Module Manufacturer Direct Supply

Overview

FS 10GbE SFP+ module solutions provide a wide variety of 10 Gigabit Ethernet connectivity options for data centers, enterprise wiring closets, Internet Service Providers(ISPs) applications.

Key Takeaways

Topstar, FS, Coherent, and Huagong Tech are leading manufacturers of 10 Gigabit optical modules, offering SFP+ transceivers suitable for deployment in Fiji.

Leading Manufacturers

Topstar Technology specializes in a wide range of optical modules, including 10G SFP+, 40G QSFP+, and 100G QSFP28 modules. They provide OEM and ODM services, with a focus on high-quality, dust-free manufacturing and global distribution, making them a viable option for Fiji-based network deployments.

F

S (Fiberstore) offers 10GbE SFP+ transceivers for data centers, ISPs, and enterprise networks. Their modules are widely used internationally and can be shipped to Fiji, providing reliable 10G connectivity solutions. Coherent manufactures pluggable optical transceivers for Ethernet, SAN, and telecom applications, including 10G SFP+ modules.

They support major networking equipment vendors and are suitable for enterprise and 5G access networks. Huagong Tech is a global leader in optical modules, including 10G and higher-speed transceivers. They offer advanced solutions for telecom, data center, and 5G networks, with full in-house design and manufacturing capabilities.

Regional Considerations

While there are no Fiji-based manufacturers explicitly listed, local distributors and resellers often supply 10G SFP+ modules from these global manufacturers. For example, media converters and SFP modules are available in Fiji through platforms like TradeKey, which provide 10/100/1000M and 10G optical solutions.

Recommendations

For enterprise or data center deployment in Fiji, sourcing from Topstar, FS, or Coherent ensures access to certified 10G SFP+ modules with international shipping. Consider OEM/ODM options if custom labeling or specifications are required. Verify compatibility with existing network equipment and check for warranty and support services for international shipments.

These manufacturers provide reliable, high-performance 10G optical modules suitable for Fiji's networking infrastructure needs.
