Fiji Industrial Internet Data Center

Overview

Telecom Fiji Limited's head of ICT, Shalvin Narayan, has announced plans for the construction of a data center set to commence in 2026. The project, which is expected to span approximately 24 months, marks a significant development for both Fiji and the broader Pacific. Google is set to build a FJ$200 million (US$89. In a recent YouTube video with Vijay Narayan, deputy Prime Minister Manoa Kamikamica said Google connectivity brings "serious opportunities" for Fiji to become a regional hub for the Pacific. Speaking at the 2025. Datec understands that datacentre availability and reliability are to your business success, and we have become the technology-driven datacenter facility solution partner in Fiji. Mr Narayan was among the delegates attending the 2025 EXTRA Fiji Architecture Conference and Trade Exhibition at the Sheraton Fiji Golf. Explosive Data Growth – Rising demand from cloud, video streaming, social media, and digital applications. More demanding apps, richer content,high bandwidth application,smarter devices. Accelerating Adoption of AI, IoT & Smart Technologies – Massive device connections and machine-to-machine.
