Fiji Power Fiber Optic Cable Manufacturer Direct Sales

Overview

We supply fiber optic infrastructure materials, telecom systems, and networking equipment in full container loads for projects across Fiji and the South Pacific.

Key Takeaways

Dominion Wire & Cables Limited is Fiji's primary local manufacturer and distributor of fiber optic and other cabling solutions, offering direct sales and project support.

Local Manufacturer and Direct Sales

Dominion Wire & Cables Limited is Fiji's only local manufacturer of cable solutions, including energy, communication, data, and industrial cables. They produce cables to international standards such as AS/NZS and BS specifications, ensuring high-quality fiber optic products suitable for local and regional projects. Dominion offers direct sales, allowing clients to purchase fiber optic cables and accessories directly from the manufacturer, with the added benefit of technical support and project consultation.

Authorized Distributors and Service Providers

For additional options, VT Solutions Ltd and Datec Fiji PTE LTD provide fiber optic cables sourced from trusted manufacturers.

V

T Solutions stocks a wide range of cabling products, including fiber optic cables, and can supply both standard and custom solutions. Datec Fiji specializes in end-to-end fiber optic services, including design, installation, splicing, testing, and maintenance, making them a reliable partner for both procurement and technical support.

Procurement and Tender Opportunities

Energy Fiji Limited (EFL) periodically issues tenders for fiber optic cables and accessories. Eligible bidders include manufacturers, authorized distributors, or resellers. Bidders must provide product specifications, quality assurance certificates, warranty information, and references from previous projects.

This process ensures that fiber optic cables meet technical standards and are delivered with proper support and documentation.

Technical Support and Installation

Both Dominion and Datec Fiji provide technical support for fiber optic installations. Dominion's R&D team can design and supply power and communication systems tailored to project requirements, while Datec offers skilled technicians for fusion and mechanical splicing, testing, and emergency repairs.

V

T Solutions also provides installation guidance and network infrastructure support for commercial and industrial clients.

Summary

For direct manufacturer sales of fiber optic cables in Fiji, Dominion Wire & Cables Limited is the primary source, offering high-quality products and technical support.

V

T Solutions and Datec Fiji complement this by providing distribution, installation, and maintenance services. Organizations seeking fiber optic solutions can also participate in EFL tenders to procure certified products with full technical documentation and support.
