Genuine Tray-Type Cable Tray Price

Overview

Cable tray are used in wiring of buildings to support electrical cables and wires that are used to distribute power, controls and communication.

Key Takeaways

Cable tray prices vary widely depending on type, material, and purchase volume, ranging from as low as $0. 80 per unit for bulk B2B orders to $34 for consumer-level products. Price OverviewB2C Market (Retail/Consumer): Cable trays are priced between $15 and $34 per unit, suitable for small-scale installations or home use.

These are often aesthetically designed and easy to install.

B2

B Market (Bulk/Industrial): Prices range from $0. 80 to over $76 per unit depending on material, size, and type. Bulk purchases from manufacturers like Schneider Electric, Eaton, or Legrand offer higher durability and professional-grade quality.

Common Cable Tray Types and Materials

Ladder Type: Open design with cross-members, ideal for heavy power cables. Standard lengths are typically 2. 4 meters, with fittings priced per piece.

Perforated Tray: Solid base with perforations for ventilation, suitable for medium loads and indoor installations. Wire Mesh Tray: Lightweight, flexible, and easy to install, often used in data centers or office environments.

Duct/

Enclosed Tray: Closed or semi-closed systems for protection against dust or moisture. Material Options: Hot-dip galvanized steel: Common for industrial use, corrosion-resistant. Stainless steel (SS 304): Fireproof and highly durable, suitable for harsh environments.

Aluminum: Lightweight and corrosion-resistant, often used in commercial settings.

FR

P (Fiber Reinforced Plastic): Fireproof and non-conductive, ideal for safety-critical installations.

Fittings and Accessories

Coupler Plates: Prices vary by tray height, e.g., 16–30 INR per piece for 25–100 mm height trays in India. Clamps and Supports: Essential for installation; prices depend on material and size.

Key Considerations

Volume Discounts: Bulk B2B orders significantly reduce per-unit cost. Installation Ease: No-drill clamps and modular designs reduce labor costs. Compliance and Safety: Ensure trays meet standards like DIN EN 61537 for industrial and commercial installations.

Durability vs Cost: Stainless steel and FRP are more expensive but offer longer lifespan and fire resistance. In summary, choosing the right cable tray involves balancing material, type, and installation requirements with budget, with prices ranging from under $1 per unit for bulk industrial orders to $34 for consumer-grade trays.
