Hollysys Industrial-Grade Fiber Optic Switches

Overview

Our industrial fiber switch portfolio covers Fast Ethernet, Gigabit and 10G performance, supporting SFP-based fiber uplinks, fixed fiber ports, and hybrid copper-fiber configurations for flexible network design. Established in 1993, HollySys is a leading supplier of automation and IT solutions in China. HollySys operates in the four sectors of industrial automation, transportation automation, medical and health care, and energy and environmental protection, covering the main industries of the national. HollySys has launched the Industrial Optical Bus Control System (OCS) based on the HOLLiAS MACS® platform. OCS supports explosion-proof Industrial Intelligent Data. Industrial fiber optic Ethernet switches are designed to deliver stable, long-distance, and interference-resistant network connectivity in harsh industrial environments where copper Ethernet is limited by distance or electromagnetic noise. Contact the manufacturer directly for a quote. Its exceptional performance has earned the trust of users, with over 20,000 successful installations spanning more than 60 countries worldwide. HOLLiAS® MACS DCS is built with.

Article Content

Industrial Optical Bus Control System

HollySys has launched the Industrial Optical Bus Control System (OCS) based on the HOLLiAS MACS® platform. This industrial process control system combines advanced industrial optical bus technology

Industrial Fiber Optic Ethernet Switches | SFP, Single-Mode

As a direct manufacturer and OEM supplier, we provide industrial fiber optic switches suitable for factory automation, energy systems, transportation networks, surveillance backbones, and outdoor field

Process control system

HollySys has launched the Industrial Optical Bus Control System (OCS) based on the HOLLiAS MACS® platform. This industrial process control system combines

OCS Presentation 2022 | PDF | Humidity | Reliability

The HollySys Optical-bus Control System (OCS) utilizes a high-speed optical fiber network to enhance industrial control efficiency and reduce costs. It offers

Hollysys: Robotics

Discover all the products from Hollysys and see a list of their distributors. Contact the manufacturer directly for a quote.

Hollysys Industrial Automation Field Control Hollias®

HOLLiAS® MACS DCS is a future-proof industrial automation control system designed to support flexible plant architectures. Its exceptional performance has

Ethernet Switches

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to

Industrial Fiber Optic Switches

Our products make use of SFP modules for multimode or singlemode fiber with LC connectors. Many of our switches support 1 or 2 fiber ports which are advantageous when daisy chain configurations are

HGW-808S 8x RJ45 +8x SFP Ports Gigabit Ethernet

The HGW-808S is a 16-port Gigabit Ethernet switch with 8-port 10/100/1000Base-T (X) and 8-port 1000Base-X SFP slot for optical fiber providing stable and reliable

Fiber Connectivity Solutions for Manufacturing Environments

Industrial-Grade Fiber Connectivity Solutions for Manufacturing Environments Optimize your factory network with rugged, high-performance fiber solutions – engineered for speed, uptime, and scalability

Industrial Optical Fiber Bypass Switch | Industrial & Telecom Network ...

Industrial-grade fiber optic bypass switches can be installed in 100M/1G/10G fiber optic networks. It protects the network from failures and subsequent maintenance by ensuring the integrity of the

Industrial Ethernet Switches | Industrial Network Switch | Perle

Rugged Industrial Ethernet Switches with PoE, 5–10 ports, 10/100/1000Base-T and fiber support. Built to withstand -40°C to 75°C, shocks and vibration.

Managed Network Switches | Industrial Managed Switches

A managed network switch allows Ethernet devices to communicate and interact with one another within the same network. Managed switches provide the tools necessary for configuring and monitoring

Optical Switches

Optical Switches We lead the industry in optical switch technology, delivering the lowest insertion loss (0.2 dB), fastest switching speed (10 ns), broadest wavelength range (300–2400 nm), widest fiber

MAIN CATALOG PLC Automation

HollySys'' business encompasses Industrial Intelligence, Transport Intelligence, and Food & Pharmaceutical Intelligence, operating through business centers in Singapore, China, India,

Ethernet Switches | EKS

In summary, these industrial-grade Ethernet switches, equipped with robust features, compatibility with various fiber types, and specialized technologies,

Compact Military Managed 24 Fiber Optic Ethernet Switch

The MILTECH24FO is a MIL-STD, fully managed military grade network switch with 24 1Gb fiber optic ports. The smallest available in the market today!

Industrial Ethernet Switches

Install these Ethernet switches and your Ethernet control network will maintain more consistent cycle times even under heavy I/O and data exchange. Fiber-ready:
