How much is a relay protection certificate worth

Overview

"Chris is extremely knowledgeable and experienced. He has seen almost every mistake that can be made in the protection and control game.

Key Takeaways

The cost of a relay protection certificate typically ranges from $144 to $699, depending on the course type, duration, and credit hours.

Overview of Course Pricing

Basic Protective Relay Training: Online or in-person courses covering power-system protection fundamentals, digital relay schemes, and fault detection are priced at $699, with options for group discounts and CEU credits (1. 2 CEUs) for professional development hours.

PD

H Online Courses: Shorter, self-paced courses on protection relay testing and commissioning are available for $144, offering 6 PDH credits upon completion.

Extended PD

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

H Courses: More comprehensive online courses with 10 PDH credits, including multiple-choice quizzes and detailed course materials, are also offered, with pricing varying depending on the provider. Specialized Training Programs: Advanced courses like PROT 401 provide in-depth coverage of protection schemes for power lines, transformers, and generators. These courses may include self-paced eLearning options, but pricing is typically higher and may require direct inquiry with the provider.

Factors Affecting Price

Course Duration: Longer courses with hands-on lab sessions or multiple days of instruction generally cost more. Certification Type: CEU or PDH credits can influence the price, as they provide professional development recognition. Delivery Method: In-person, hands-on training tends to be more expensive than online self-paced courses.

Group Discounts: Some providers offer discounts for multiple participants from the same organization.

Recommendation

To obtain the most accurate pricing for a relay protection certificate, it is recommended to contact the training provider directly, as fees may vary based on location, course format, and current promotions. Providers like AVO Training Institute, Electricity Forum, and CED Engineering offer detailed quotations upon request. This range gives a practical estimate for budgeting purposes, with $144 for online PDH courses as the lower end and $699 for comprehensive CEU-certified courses as the higher end.
