Intelligent LCD PDU Distribution Unit

Overview

LCD touch screen smart PDU with a mix of IEC C13/C19 sockets delivers a comprehensive solution for power distribution and management in critical IT environments. Managing and installing a rack power distribution unit (PDU) has never been easier than with the EL2P PDU. Whether that means speeding up Saturday installs or focusing on. iPower ACU is a 3rd generation of intelligent PDUs design to aid Data Centre power management. The range consists of four models offering various levels of power monitoring and power switching features, and can be manufactured as single, dual or 3-Phase with a choice of socket types and mains lead. Take energy management to the next level with Panduit PDUs. The EL2P PDU is the smarter, simpler way to manage rack-level power. Provides reliable power distribution with color configurable LCD display and real-time remote/local monitoring for connected equipment Provides reliable power distribution with color configurable LCD display featuring real-time remote/local monitoring and outlet control for connected equipment. Intelligent Power Distribution Units - switched, metered and monitored PDUs for data centers, telecom and industrial applications. Remote power control, real-time energy metering, SNMP/Modbus integration, global certifications and OEM/ODM support.
