Ireland Low Voltage Complete Equipment Company

Overview

Our low voltage lighting solutions are specifically designed for industrial spaces. We also provide receptacle systems suitable for low voltage equipment and devices.

Key Takeaways

Key providers of complete low voltage equipment solutions in Ireland include GWEC, Argand Switchgear, BMC Manufacturing, Capital, and Ensto Renley.

GWECGWE

C specializes in industrial low voltage systems operating below 1000V, providing safe and reliable power solutions for industrial machinery and equipment. Their offerings include power distribution systems, low voltage lighting, receptacle systems, backup power solutions, and auto-transfer switches to ensure uninterrupted operations.

GWE

C emphasizes customized, scalable solutions tailored to facility needs, focusing on energy efficiency and minimal operational costs.

Argand Switchgear

Argand Switchgear has over 25 years of experience manufacturing low-voltage switchgear and control panels for diverse industries. They provide rigorously tested, high-quality boards and maintain strong client relationships. Argand's expertise spans thousands of LV switchgear projects across Ireland and internationally, offering cost-effective, modern, and efficient technology through a proven supply chain.

BM

C ManufacturingBMC Manufacturing offers a wide range of low voltage products and services, including switchgear manufacturing, UPS sales, prefabricated data center modules, and maintenance services. They cater to both industrial and commercial clients, providing comprehensive solutions for electrical infrastructure.

Capital

Capital focuses on low voltage distribution and control systems for critical infrastructure and data centers. With a senior team boasting over 80 years of combined experience, they deliver robust LV switchgear solutions at scale, emphasizing precision, integrity, and mission-critical reliability. Capital is known for handling complex commercial and industrial builds with strict adherence to deadlines and quality standards.

Ensto Renley

Ensto Renley, formerly Renley Ltd, is a specialist in low and medium voltage products for distribution system operators (DSOs). Located in Dunboyne, Ireland, the company manufactures distribution panels, mini pillars, fused combination units, and cabinets. Acquired by Ensto in 2020, Ensto Renley combines local expertise with international reach, strengthening its market presence in Ireland and the UK while continuing to serve major DSOs with proven technology and long-term customer relationships.

Summary

These companies collectively provide complete low voltage solutions in Ireland, covering industrial, commercial, and critical infrastructure applications. They offer manufacturing, design, installation, and maintenance services, ensuring reliable and efficient electrical systems. Depending on your specific needs—such as industrial machinery, data centers, or DSO requirements—these providers represent the leading options for high-quality, scalable, and mission-critical low voltage equipment solutions in Ireland.

Parkmore Electrical | Low Voltage (LV) Switchgear Manufacturer ...

Specialists in the design and manufacture of low-voltage (LV) power distribution systems and switchgear solutions. Delivering bespoke, high-quality systems for commercial, industrial, and infrastructure

About Us | Capital

Led by a senior team with over 80 years of experience, Capital design and manufacture low voltage distribution and control systems that enable critical infrastructure and data services. We''re a

Switchgear Technology Supplier AMP Engineering Ltd

AMP Engineering Ltd. – Delivering trusted low-voltage switchgear and power distribution solutions since 2014. Discover our range of LV Distribution Boards, MCCs, and Control Panels. Trusted by leading

GemENG Electrice Consulting

Our engineering team specialises in low voltage (LV) power design and brings a wealth of experience in providing design services to clients in various sectors including mission-critical, railway,

Home – MK Panels

MK Panels are experts in the design and manufacture of electrical, distribution, metering and control boards. We specialise in low voltage switchgear up to 3200 Amps to form 4 standard and can offer

Switchgear Providers | County Roscommon | Central Switchgear

Our product is directed at quality and reliability as well as technological advancement in design and performance. You can be certain that we will supply you or your clients with equipment that is long

ABB soft starter supplier

We offer the complete range of ABB Variable Speed Drives as well as installation, commissioning, maintenance and lifecycle support. We are Ireland''s only ABB certified commissioning and repair

Substation Maintenance (HV & LV)

Enersol are a high voltage installation and maintenance company specialising in contracts to look after customers high and Low voltage equipment whilst taking on the role of authorised Person duties if

Home | mysite

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

Argand Switchgear was established over 25 years ago to provide low-voltage switchgear solutions for the Irish market. Since it''s incorporation, the company has grown steadily to become a respected and

Enersol Expertise |Electrical Power Management | Enersol

Enersol Expertise Enersol is an industry leader in the area of Low & Medium Voltage Power Distribution systems since its inception in April 2002. Enersol prides itself as a specialist electrical engineering

HVSM: Supply Service

HVSM has been operating since 1991 and is a wholly Irish owned and operated company. Since we were established we have built an excellent reputation for best in class specialist service in High

Wholesale Distributor of Security, AV & Low Voltage

ADI Global Distribution is the industry''s leading global distributor of security, AV, and low-voltage products. For more than 25 years, professional contractors, dealers

Prefabricated cabin & Switchgear Manufacturer|DOHO

DOHO Electric provides high, medium, and low-voltage switchgear, components, transformers, and new energy solutions. Our products—such as

Low Voltage Systems

These systems operate at voltages lower than 1000V, providing a safe and reliable solution for the diverse electrical needs of industrial facilities and equipment. What Are Industrial Low Voltage

S.I. No. 428/1992

S.I. No. 428 of 1992. EUROPEAN COMMUNITIES (LOW VOLTAGE ELECTRICAL EQUIPMENT) REGULATIONS, 1992. I, PADRAIG FLYNN, Minister for Industry and Commerce, in exercise of the

High-Voltage Connections

TSG Power delivers high-voltage (HV) infrastructure for Ireland''s most demanding environments, hubs, data centres, airports & Industry.
