Kuwait Export Mesh Cable Tray Processing

Overview

Bahman GroupSpanning more than six decades, the Bahman Group of Companies stands tall as one of the pioneers in the Kuwait market in the field of GeneralTra.

Key Takeaways

Kuwait has a growing mesh cable tray industry with established manufacturers like Bahman Group and Almeer Industries, producing high-quality trays for local and GCC markets, supported by international certifications and increasing export potential.

Key Manufacturers and Facilities

Bahman Group operates one of the largest cable tray factories in Kuwait, located in the Shuwaikh Industrial area. The facility is equipped with advanced machinery for manufacturing GI raceways, cable trays, cable ladders, and enclosures for local projects and infrastructure, including hospitals and universities. Their products are widely approved for government and private sector projects, indicating strong quality and compliance standards.

Almeer Industries, established in 1996, specializes in high-quality cable trays and electrical wiring systems. Their manufacturing facility in Jahra, Kuwait, serves both local and GCC markets, including UAE, KSA, Oman, Jordan, Iraq, and Qatar. Almeer follows ISO 9001, ISO 14001, OHSAS 18001, and holds UL and DEKRA certifications, ensuring products meet international standards for safety and performance.

EBOMA

C also provides cable trays along with medium and low voltage switchgear, emphasizing customized design, testing, and compliance with international standards.

Market Overview

The Kuwait wire mesh cable tray market is projected to grow from USD 2. 63 million in 2024 to USD 3. 58 million by 2032, at a CAGR of 5.

23%. The 101 mm to 300 mm width segment is the fastest-growing, reflecting demand in data centers and IT infrastructure, which is the largest market segment in Kuwait. Direct sales dominate the market, indicating strong local procurement channels.

Processing and Export Considerations

Mesh cable trays in Kuwait are typically manufactured using galvanized steel or wire mesh, ensuring durability and corrosion resistance. The production process includes cutting, welding, bending, and surface finishing, followed by quality testing to meet international standards. Manufacturers like Almeer and Bahman are capable of exporting to GCC countries, leveraging their certifications and compliance with regional electrical codes.

Applications

Mesh cable trays are widely used in commercial, industrial, and IT infrastructure projects. They provide flexible cable management, allowing easy installation and future modifications without dismantling existing systems. This makes them ideal for data centers, hospitals, and large-scale construction projects.

ConclusionKuwait's mesh cable tray industry is well-established, technologically advanced, and export-ready, with manufacturers like Bahman Group, Almeer Industries, and EBOMAC leading production. The market is growing steadily, driven by infrastructure development and IT sector expansion, making Kuwait a reliable source for high-quality mesh cable trays in the GCC region.
