# Libyan Residential Electrical Distribution Box Manufacturer

## Overview

Through it, it provides low-voltage electricity distribution boxes with international specifications.

## Key Takeaways

Key Libyan manufacturers of residential electrical distribution boxes include Altazamon, EICO, Al Hussain, AlFath Al Dahabia, and Salama Electrical. Leading Manufacturers1. Altazamon Company Established in 1998, Altazamon specializes in engineering and assembling electrical panels and distribution equipment.

The company serves both governmental and private clients, including the General Electricity Company of Libya (GECOL), providing high-quality distribution boxes and panels tailored to local standards. 2. Electrical Industries Company (EICO) EICO operates two main factories: one for low and medium voltage equipment producing electrical distribution boxes, panels, and transformer protection boxes, and another for electrical transformers ranging from 50 kVA to 2000 kVA.

### EIC

O has extensive experience in designing, manufacturing, and testing electrical distribution products for residential and commercial applications. 3. Al Hussain for Electrical Industry and Services (HEISCO) Founded in 1993, HEISCO manufactures and assembles electrical distribution boards, package substation units, and street lighting boxes.

The company uses modern CNC machinery and produces enclosures from ALUZINC steel, meeting IEC standards and specifications from Schneider Electric and GECOL.

### HEISC

O also serves oil and gas sectors with specialized panels. 4.

Al

Fath Al Dahabia Company Operating since 1989, AlFath Al Dahabia focuses on low and medium voltage electrical projects, including designing and supplying electrical distribution panels and sub-stations. The company imports and installs electrical equipment for industrial and residential applications across Libya. 5.

Salama Electrical Salama Electrical is a supplier and distributor of electrical equipment, including residential distribution boxes, transformers, and wiring devices. Their products comply with international certifications such as UL, CUL, VDE, and CE, ensuring quality and safety.

### Summary

These companies provide a wide range of residential electrical distribution solutions, from standard distribution boxes to specialized panels for industrial and oil & gas applications. They combine local manufacturing expertise with international standards compliance, making them reliable partners for residential electrical infrastructure in Libya. For sourcing, it is recommended to contact these companies directly to discuss specifications, certifications, and delivery options.
