Lsh fiber optic connector

Overview

The LSH adapters are designed for connectors with PC and APC polishing method. The optical connector is one of the most essential components for optical communication. The bend-insensitive fibre optic pigtails have less attenuation when bent or twisted than traditional fibre optic pigtails. Pigtails are used for non-permanent connections in patch panels, transmission equipment etc. Factory assembled pigtails allow for. The total length includes the connector. 1m (3ft) 2m (7ft) 3m (10ft) 5m (16ft) m□ 1m (3ft) 2m (7ft) 3m (10ft) 5m (16ft) m□ Fiber Mode: Multimode 62. LSH integrated protective cap protects ferrule from dust and rules out any laser light emissions, the single type is equipped with metal internal shutter.
