

MPO 10 Gigabit Multimode Fiber Patch Cord

Overview

10 Gigabit Fiber Optic Assemblies- 10 Gigabit Fiber Optic Jumpers-MPO patch cords are 12-strand multi-fiber patch cords. Designed with precision molded MT ferrules, our female MPO assemblies are made with precise housings ensuring perfect fiber alignment during mating with MPO. We offer the finest quality fiber optic assemblies from several manufacturers including Emerson, Corning, ADC, Telect and more- American Data Supply now offers 10 gig fiber optic assemblies and 10 gigabit fiber optic jumpers in both multimode and singlemode. We stock one of the largest arrays of platforms, high-performance computing (HPC) and large-capacity fiber communication networks. The patch cord uses high-speed parallel fiber transmission in a single connection, greatly improving wiring efficiency and reducing space occupancy. Compatible with both 8- and 12-fiber systems, they support Enhance your data. An MTP®/MPO cable is a high-density fiber optic cable that uses multi-fiber connector to transmit multiple optical signals through a single interface. Usually, one MTP®/MPO connector has 8, 12, 16, 24 or 32 fibers, which makes these fiber cables perfect for applications that require huge bandwidths. [ADAPTED TO TELECOMMUNICATION LEVEL REQUIREMENTS]: MAKE SURE PRODUCT COMPLIES TO STANDARD SETTINGS AND MEETS TELECOMMUNICATION LEVEL REQUIREMENTS FOR HIGH QUALITY PERFORMANCE [MAKE SURE TO MEET STANDARDS]: END FACE GEOMETRY TESTED TO MEET STRICT CURVING RADIUS AND FIBER HEIGHT STANDARDS GUARANTEEING. The MPO-MPO Patchcord for 40G/100G SR4 modules, 10m length, OM4, features 12 crossover fibers.
