Manufacturer of Low-Voltage Power Distribution Boxes in Democratic Republic of Congo

Overview

Low Tension Panel In Democratic Republic of the CongoWe use cut-edge tools and modern machinery to manufacture premium quality Electrical Panels, LT Distri.

Key Takeaways

Key manufacturers of low-voltage power distribution boxes in the DRC include MCA Congo, WEG, and Brilltech Engineers, offering a range of LV switchgear, MCCs, and electrical panels.

MC

A CongoMCA Congo SARL, a subsidiary of the MCA Group, operates in the DRC and specializes in low and medium voltage switchboards, motor control centers (MCCs), and LV distribution solutions. They provide customized fabrication including substation solutions, E-HOUSES, and generator and solar solutions for LV applications.

MC

A Congo is a licensed technology partner for Sivacon S8, Tekpan PDS, and Simoprime type-tested switchgear, ensuring compliance with international standards IC 61439-1/2 and IC 62271-200 & VDE 0671-200. They also offer local training programs to enhance technical skills in Kolwezi.

WEGWE

G has a strong presence in the DRC mining sector, supplying low-voltage MCCs, LV variable speed drives, soft starter panels, and transformers. While much of their equipment is manufactured in South Africa, WEG maintains a local distribution and service network in the DRC, including partners like IPS Congo in Kolwezi. Their products comply with IEC standards and ISO 9001: 2015 quality procedures, making them suitable for industrial and mining applications.

WE

G focuses on energy-efficient solutions, including premium IE3 and IE4 motors.

Brilltech Engineers

Brilltech Engineers Pvt. Ltd. is recognized as a manufacturer and supplier of power distribution panels in the DRC, offering a wide range of LV distribution panels, load management panels, marshalling panels, and outdoor power panels. They operate an in-house manufacturing unit with modern machinery to ensure precision and quality.

Brilltech also provides electrical cables, chemical earthing systems, and transformers, catering to both local and export markets.

Summary

For projects requiring low-voltage power distribution boxes in the DRC, MCA Congo, WEG, and Brilltech Engineers are prominent options.

MCA Congo and WE

G are particularly suited for industrial and mining applications with international compliance and technical support, while Brilltech Engineers offers a broad range of LV panels and electrical components with custom manufacturing capabilities. These manufacturers provide both local support and adherence to global standards, ensuring reliable and efficient LV power distribution solutions.
