Manufacturer of anti-electro-marking communication corrugated conduits

Overview

Buy corrugated pipe from an expert As an expert in cable protection, E-M-C-direct GmbH & Co KG offers you a range of top-quality corrugated conduits.

Key Takeaways

Delikon, SEMI Conduits, ABB, Polieco, and Turkuaz Elektroteknik are leading manufacturers of EMI-shielded and anti-electro-marking corrugated conduits for industrial and communication applications.

Key Manufacturers and Their Offerings

Delikon / SEMI Conduits: Delikon specializes in EMI/RFI shielding heavy series over-braided flexible conduits and connectors designed to protect automation, CNC, and communication cables from welding sparks, hot metal splashes, and electromagnetic interference. Their products include braided flexible metal conduits, liquid-tight conduits, and over-braided corrugated polyamide conduits suitable for steel mills, petrochemical industries, and high-performance wiring harnesses in vehicles and industrial machinery.

B (PMA Cable Protection): ABB offers non-metallic flexible conduit systems for critical power and data cable protection. These conduits are designed for industrial and infrastructure applications, providing mechanical protection and ensuring safe cable management in environments where EMI shielding is required. Polieco: Polieco manufactures corrugated cable conduits and flexible pipes for underground power, electrical, and communication installations.

Their conduits are made from polyethylene, PVC, or polypropylene, offering resistance to temperature variations, chemicals, and mechanical stress, making them suitable for communication and anti-electro-marking applications. Turkuaz Elektroteknik: Operating since 1989, Turkuaz produces a wide range of electrical installation pipes, including flexible steel and coated conduits. Their facilities include extruders, injection molding, and CNC machines, enabling the production of customized corrugated and flexible conduits for industrial and communication systems.

Applications

These conduits are widely used in: Industrial automation and CNC systems for motion control and sensitive electronics protection. Steel mills and welding environments to prevent damage from sparks and hot metal. Communication and data transmission systems requiring EMI shielding.

Underground and outdoor installations where mechanical and chemical resistance is critical.

Conclusion

For anti-electro-marking communication corrugated conduits, Delikon, SEMI Conduits, ABB, Polieco, and Turkuaz Elektroteknik provide reliable solutions with EMI shielding, mechanical protection, and flexibility suitable for industrial, automation, and communication applications. Selecting a manufacturer depends on the specific requirements such as material, flexibility, EMI shielding, and environmental resistance.

Article Content

Buy corrugated conduit, empty conduit or cable conduit from an expert

Buy corrugated pipe from an expert As an expert in cable protection, E-M-C-direct GmbH & Co KG offers you a range of top-quality corrugated conduits. Our range of corrugated conduits includes

Corrugated conduits – murrplastik Online Shop

murrplastik is the global specialist for smart cable management. Our systems, components and services are reshaping the industry, protecting investments and enabling its secure progress.

Corrugated cable conduits, flexible conduits for electrical cables ...

The corrugated pipe for cable conduits, manufactured by Polieco, provides resistance to temperature excursions and chemicals, guaranteeing flexibility, elasticity and light weight, thereby

SUPERFLEX PLUS plastic conduit with anti

SUPERFLEX PLUS new 3-layer conduit with anti – electromagnetic technology drives to a new era in concealed type installations in

Corrugated conduits and pipes for electrical cables

Picenum Plast supplies high-strength PE conduits for the protection and passage of electrical cables laid underground and in buildings. The range includes

Corrugated conduits

Corrugated conduits Systems made up of corrugated sleeves, fittings and accessories for the support, conduction and mechanical protection of machine-side cables and in automated and robotic systems

PMA cable protection

PMA® cable protection from ABB offers non-metallic flexible conduit systems for the protection of critical power and data cables. They can be used in an extremely wide range of applications.

Conduit & fittings | Products | ABB

Our range of conduits & fittings offer solutions for: Innovative nylon cable protection solutions for applications across rail, robotics and food & beverage. Flexible

HDPE empty conduit or corrugated conduit from E-M-C-Direct

© 2026 FD SOLUCIONES OPTICAL SYSTEMS - All rights reserved

PE-HD protective conduits from E-M-C-Direct are corrugated conduits of the highest quality and are ideal for protecting cables in the ground.

Medium-Duty Communication Corrugated Conduit

Yes, Medium-Duty Communication Corrugated Conduit is UV rated. Manufacturers ensure it complies with Australian standards and design it with exceptional UV protection, making it suitable for above

Industry Leader of Commercial Electrical Conduits,

Market leader in electric flexible conduits and cable protection LFMC solutions. Get the best Electrical Conduit for your business

MOM DOCUMENT

Conduits: Certified in accordance with EN 61386-22 Quality marking: Nemko''s protected N mark Quality marking of products produced by Preflex: Tested by SGS CEBEC The products are also subject to

Buy Tripac Medium Duty PVC Communications Corrugated Conduit

Tripac electro-insulating corrugated conduit is an excellent choice for complex installations where flexibility is required. Superior resistance to impact, water, weather, chemicals, and corrosive

Communication PVC White Corflo® Corrugated Conduit 100mm x 6m

Description Corflo ® is high performance double-wall PVC pipe with a smooth internal bore and corrugated exterior for electrical, communication and stormwater applications. The technologically

Corrugated Conduit Guide: Types, Uses, Installation

Corrugated conduit is a type of protective tubing with a ribbed, flexible design used to route and safeguard electrical wires and cables. Unlike rigid

Wire conduits, cable conduits, cable protection

In addition to the outstanding material properties of the flexible cable protection conduits from HellermannTyton, customers also benefit from system solutions.

LSZH Corrugated, Low Smoke Halogen Free Electrical Conduit Pipe

LSZH corrugated conduit is made from a material that emits minimal smoke and no toxic halogens when exposed to high temperatures or fire. The corrugated design provides additional flexibility and ease
