Network rack door dimensions

Overview

The heights of Network Racks are measured in what is known as “Rack Units” (1.75 inches, or 44.45mm).

Key Takeaways

The standard width of a network rack with doors is typically 19 inches. This measurement follows the EIA-310 standard, which is widely adopted for rack-mounted equipment. Some racks may also be available in 24 inches wide, but 19 inches is the most common size used in data centers.
